MOTOR COACH SERVICE IN- AUGURATED THROUGH PASS

On Monday of this week, a motor
coach service was inaugurated
through the Pass and schedules post-
ed calling for two trips daily be-
tween Macleod and Cranbrook. It is
rumored that the roads will be kept
open this winter and the service
maintained.

The Pass route is part of a net-
work of coach runs operated by Can-
adian Greyhound Coaches, Limited, of
Calgary. Their commodious coaches,
entering to express and parcel trade
as well as passengers, connects with
earlier established routes at Macleod,
for Calgary, Edmonton and Leth-
bridge, while at Cranbrook connec-
tions are made for United States
points.

The coaches leave Macleod 2.40 and
arrive at Cranbrook at 9.45 p.m.; re-
turning, they leave Cranbrook at 7
a.m. and arrive at Macleod at 2.05
p.m. The west-bound coach passes
through Blairmore at 4.55 p.m. and
the eastbound arrives at 11.30, leav-
ing at 11.50 a.m.

The Cosmopolitan hotel is used as
the stopping point for Blairmore,
where information can be secured.

FABRO-POZZI

In the presence of immediate re-
latives and a few intimate friends, at
10 o'clock this morning, St. Anne's
Catholic church was the scene of a
quiet and pretty wedding, when Ben-
venuta Mary, eldest daughter of
Mrs. Stella and the late E. J. Pozzi,
of Blairmore, was united in marriage
to Alphonse Angelo, of Kimberley.
J.C., eldest son of Mr. and Mrs. Jos.
Fabro, of Blairmore. Rev. Father
Harrington performed the ceremony,
assisted by Rev. Father O'Day, of
Cowley.

The bride entered the church on
the arm of her brother, Louis Pozzi,
during the rendering of Mendels-
son's Wedding March, by Mrs. G.
M. Bond. Miss Anna Pozzi and Mr.
Milo Fabro, sister of the bride and
brother of the groom, respectively,
were witnesses. After signing the
register, Mr. Bond played "Here
Come The Bride."

After the ceremony, a wedding
breakfast was served at the home of
the bride's mother.
Mr. and Mrs. Fabro are leaving for
a short honeymoon at Banff and in-
termediate points before returning to
Kimberley, where Mr. Fabro is em-
ployed, to make their home.

The Enterprise joins the many
friends of the well known and popu-
lar couple in extending best wishes.

UNITED CHURCH HARVEST SOCIAL

A very happy time was spent by
all who attended the harvest social
at the United Church on Monday
evening last.

A splendid musical programme was
given by the following artists: Mrs.
A. Br. dge, of Coleman; Miss Frances
Linville, of Frank; Mesdames Ban-
nan, Price and Smith; Miss Irene
Chappell and Mr. A. Hadwell, of
Blairmore.

Mr. Bannan, who was the auction-
eer of the vegetables and fruit, got
a little tangled in his terminology,
calling a certain bunch of carrots a
bunch of bananas. However, every-
thing was made right and all diffi-
culties cleared up when the meeting
adjourned to the basement to partake
of the tea, coffee and pie provided
by the Ladies' Aid.

Dr. R. K. Lillie has moved his den-
tal parlors and is now located up-
stairs over the drug store. He is be-
ing assisted at his new quarters by
his sister-in-law, Miss C. Jacques, of
Calgary, who arrived the early part
of the week to take up her duties as
nurse.

THE GAME ACT

We beg to acknowledge receiving
from the Game Commission, Edmon-
ton, a copy of The Game Act in book-
let form and wish we had the time
and space to comment on its contents
at a period when the subject is fore-
most in the minds of hunters, now
that the hunting season has just open-
ed.

With the hunters familiarizing
themselves with the conditions of the
act, as to bag limits, etc., it will not
be amiss to quote "the sportsman's
creed," etc., the commission has in-
cluded in the booklet, to make the
act more congenial for all concerned.
The Sportsman's Creed—I believe
that a sportsman should: never in-
sult or endanger human life; never
kill wantonly, needlessly or brutally;
obey the laws, work for better laws,
and uphold the law-enforcing officers;
respect the rights and feelings of
farmers and property owners; al-
ways leave seed birds and game in
cover; never be a game hog; discour-
age in every way the taking of
game for commercial purposes; study
and record the natural history of
wild life in the interest of science;
love Nature and its denizens; be a
gentleman.

Remember: the farmer is your best
friend; ask permission to hunt on his
land, he will usually meet you half
way; put up his bars and close his
gates; crawl through, over or under
his fences without breaking them
down; don't injure or destroy his
chickens or cattle or let your dog
worry them; put out your camp fire
before leaving and protect his prop-
erty and your hunting ground; co-
operate with your provincial game
department and help spread this
message to everyone.

Don't shoot game during close sea-
sons; don't shoot insectivorous birds
at any time; don't shoot big game
until you see the horns; don't shoot
female big game animals; don't shoot
more than your limit; don't shoot
without a license or leave your li-
cense at home; don't use an automa-
tic or machine shot-gun; don't hunt
on enclosed land without permission;
don't hunt on Sunday; don't forget
what happened the wild pigeon and
buffalo; don't be an exterminator of
game by killing more than a sports-
man should; don't point your gun,
loaded or otherwise, at anything you
don't wish to kill; don't carry a load-
ed gun in a vehicle, drag it from a
boat, vehicle or through a fence;
don't forget your co-operation is nec-
essary to prevent the extermination
of our game; don't forget that pen-
alties for infraction of The Game
Act range from \$10 to \$1000.

PUBLIC LIBRARY

This week the Library thankfully
acknowledges one book from Mr. T.
A. Campbell and one from Mr. A.
Greig.

It is said that Lincoln walked
twenty miles to borrow a book. The
Library in your town offers you more
and better books than Lincoln
knew. All you have to do is walk
a block or so to the Public Library
and borrow all you can read. The
Library fee is \$1.00 yearly. Open
Tuesdays and Saturdays from 7 to
9 p.m.

TO ORGANIZE JUNIOR ORDER

Ralph W. Perry is
organizing a Junior
Order of Moose in
town, admitting to
membership boys
from 16 to 21 years of age. Anyone
interested, kindly get in touch with
Mr. Perry.

Local Teacher: "Tommy, can you
tell me one of the uses of cowhide?"
"Er, yesster. It keeps the cow togeth-
er."

Hello Everybody! We are "PUTTING ON THE RITZ"

FEATURING HARRY RICHMAN

CONTRACTS LET FOR ELEVATOR AT PORT CHURCHILL

Ottawa, Ont.—Important contracts in connection with the power equipment for the 2,500,000-bushel elevator for the Department of Railways and Canada is constructing at Churchill, have been announced. The announcement came from Hon. R. J. Manion, minister of that department.

The boiler-house equipment will be supplied and installed by Babcock, Wilcox & Galloway, Limited, of Galt, Ont., and the generator room equipment by the C. A. Parsons Company, Limited, of Toronto, Ont., and Newcastle-on-Tyne, England. The expenditure represented by these contracts will amount to about \$550,000.

Good progress is being made with the work of developing a port at Churchill, and the construction program laid down in the winter of 1927-28 has not only been maintained but, in certain respects, exceeded.

The program contemplated sufficient work and facilities to permit of testing out of the route during the fall season of 1931. It provided for the completion of 900 feet of deep water dock by the end of the present season, the tidal use of the harbor during the entire season of 1932, and complete use of the port by the end of that season. Extra effort is, however, being made, and it is expected that at least 900 feet of dock will be completed before the closing down of the work this fall, and the entire 1,600 feet of dock is expected to be available by September, 1931.

The recent summer has been the hottest in the history of Hudson Bay Railway construction. This had its effect upon the railway, and has made a good deal of additional hot-basting necessary. That work also is receiving attention, and there are at the present time more than 2,000 men engaged upon either the railway or port facilities.

New Zealand Butter

Cargoes being rushed to Canada before duty comes into effect.

Vancouver, B.C.—Two Pacific liners are rushing towards Vancouver with shipments of New Zealand butter, the last which will come in before the Federal Government's duty of around four cents a pound on this article, comes into effect.

The R.M.S. Aorangi has 8,277 boxes to be landed here and 1,900 boxes for Victoria.

On October 10 the R.M.S. Niagara will bring another consignment, the amount of which is not yet known. In this latter case heavy demand on the butter market is expected during the days between the arrival of the butter and the imposition of the tariff.

Bootlegging Of Grain

Manitoba Pool Takes Steps To Stop Practice

Winnipeg, Man.—A determined attempt to prevent the bootlegging of grain by wheat pool members was started recently when eleven interim injunctions against farmers were sought by the Manitoba Wheat Pool before Mr. Justice Donohay in chambers.

Sale of grain by pool members to non-pool purchasers is a breach of the organization's five-year contract, and constitutes what the trade calls "bootlegging."

Sixty Bushels To The Acre

Prince Albert.—Threshing halted by rains, reports pouring into this city indicate that for bushel per acre yield of wheat standing records have been shattered this year in many districts. R. J. Burke, White Star, and A. Chambliss, of Foxford, claim to have threshed fields of Garnet which yielded 60 bushels to the acre, while Joe Gundo, of this district, reports a 58 per cent yield of Garnet.

Graf Zepplin Visits Russia

Moscow, Russia.—The Graf Zeppelin paid her first official visit to the Soviet capital, and was greeted when she landed at October field with red flags flying and bands playing proletarian airs. After a brief visit she returned to Germany again. Dr. Hugo Eckener was greeted by high Russian air officials.

May Give Up Flying

London, England.—The Daily Herald says that Wing Commander Charles Kingsford-Smith, Australian aviator who recently flew from Australia to the United States, has abandoned his plan for a homebound flight to Australia, and has quit flying entirely, on physician's order.

W. N. U. 1853

Wheat Crop Estimate

Federal Government Forecast Of Wheat Crop Is 384,700,000 Bushels

Ottawa, Ont.—Canada's wheat crop is estimated at 384,700,000 bushels, of which 362,000,000 bushels will be garnered in the three prairie provinces. This is the forecast made public recently by the Dominion Bureau of Statistics based on reports filed in on or about August 31.

Of the above total for all Canada 384,400,000 bushels is spring wheat. Last year's spring wheat crop totaled 284,016,000 bushels and the entire wheat crop was 304,520,000 bushels. "The western wheat crop," the report states, "is very spotty and thus difficult to estimate because of a series of deprecating weather effects from seeding until harvest."

"The crop has been favored by relative freedom from frost damage and by almost ideal weather for harvesting," the report declared. "The short straw and the extended use of combines have also aided the dry season to establish a new high record for business and volume of grain marketed in the month of August. Inspections to date show the quality to be even above that of last year."

Fast Automobile Journey

From Toronto To Vancouver In 95 Hours And 15 Minutes

Vancouver, B.C.—From Toronto to Vancouver by automobile in 95 hours and 15 minutes, the record achieved by two youths of Oakville, Ont. The fastest train schedule takes 85 hours to do the same journey.

Dick Henry and Vernon Dwyer left Toronto Thursday, at 11 p.m., and arrived here, Monday night, at 6:30 o'clock. They proceeded from Toronto to Saint Ste. Marie, thence across United States territory to Emerson, Minn., from there they followed the main prairie roads to Crow's Nest Pass, through the Rockies to Vancouver.

May Return To Public Life

Rumor That Hon. C. A. Dunning Will Continue In Politics

Ottawa, Ont.—The return to public life of Hon. C. A. Dunning, former Minister of Finance, who was defeated in Regina, is still regarded as very much of a possibility.

It is suggested that Mr. Dunning, W. L. Mackenzie King, opposition leader, and Mr. Dunning in mind when he made his reference to familiar figures who were absent from the Commons, during his speech on the address from the throne.

Mr. Dunning was one of the most prominent debaters in the Liberal ranks during the last parliament.

Steamship Breaks Record

"Empress Of Japan" Makes Fast Crossing Victoria To Honolulu

Honolulu.—Breaking all records from Victoria, B.C., to Honolulu, the Canadian Pacific steamship "Empress of Japan," arrived here in four days fifteen hours and fifty minutes for the 2,329 miles.

On her maiden voyage, the liner lowered the record between Yokohama, Japan, and Victoria to eight days, six hours and twenty-seven minutes, August 22. This trans-Pacific record had stood for seven years.

Toten Pole For President Hoover

Baltimore.—Another gift is on its way for President Hoover's collection. It is a totem pole about a foot high, carved from a walrus tusk to be presented to him when he arrives to review the parade of the Veterans of Foreign Wars. The totem pole is the gift of Denali Post, Anchorage, Alaska.

Nurses Have Eight Hour Day

Ottawa, Ont.—As a measure to relieve of unemployment, the board of trustees of Ottawa Civic hospital have decided to provide an eight-hour working day for nurses on the staff. Three shifts of nurses will now be employed daily in place of the present double shift of 12 hours each.

Ogopogo Still Lives

Hamilton, Ont.—Prompt action by Vernon, B.C., in broadcasting denial that Ogopogo died a violent death, met with reward recently when the Union of Canadian municipalities voted to meet next year at the sea serpent city. Vernon delegates promised a sight of Ogopogo, and the vote was unanimous.

Sixty Bushels To Acre

Laurel, Sask.—The biggest crop in this district was threshed on Mrs. F. B. Spence's farm three miles north-west of town, the average for the field being 60 bushels of wheat to the acre.

Wheat From Russia

Cargo Of Russian Wheat Is Received In Scotland

London, England.—The first example of Russia's wheat export campaign is the arrival of 7,000 quarters (a quarter equals eight bushels) of Russian wheat at Leith, in Scotland, for the Scottish Co-Operative Wholesale Society.

This is said to be the first Russian consignment to Scotland since the war, and it was made in spite of the reported stringent food shortage in Russia.

Cut-Off May Be Included

Appropriation For Winnipeg's Short Route To Bay Railway Expected

Ottawa, Ont.—Provision towards the construction of the proposed Marking cut-off in Manitoba to the Hudson Bay Railway will probably be included in the \$20,000,000 expenditure proposed by the government on national undertakings.

It is understood that work on the short route from Winnipeg to the Hudson Bay Railway will start this fall.

UNITED STATES MOVES TO HALT IMMIGRATION

Washington, D.C.—The state department has announced that in carrying out President Hoover's wishes for more strict application of the immigration laws to aid unemployment, conferences will be held at Winnipeg and Vancouver, in addition to three consular conferences overseas.

The Canadian conferences are set for this week and another date early in October. Foreign Service Inspector Monnett B. Davis has been designated to attend the conferences in the Dominion.

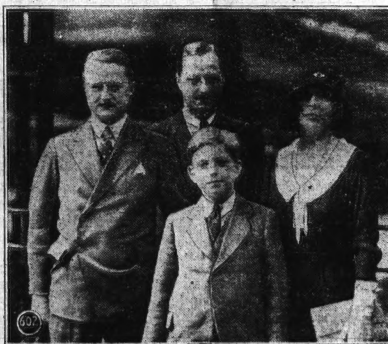

A conference at London, England, September 22 and 23 will draw the consular officers in England, Ireland and nearby points on the continent. Officers from France, Germany, Switzerland, Austria, Sweden, Italy, Czechoslovakia and Yugoslavia, and a third conference for the consular officers in Poland, Finland and Latvia, completing the plans for all large immigration centres in Europe, will be held October 1 and 2, at Warsaw.

Under the president's plan, immigrants to the United States must show they will not become public charges. At present, aliens entering the country with position previously contracted for, are denied entry under the alien contract labor law.

Ottawa, Ont.—Announcement from Washington that more stringent measures are in contemplation in regard to migration to the United States was received here recently without any great degree of surprise. Unemployment in the country to the south has frequently been stated to be considerably worse than in Canada, and it was expected that steps might be taken to curtail the movement in that country.

It is generally accepted, however, that the present emigration from Canada across the border is not great enough to cause apprehension in Washington.

"Miracle" Heroine Here.

Lady Diana Manners, famous English society beauty and equally famous heroine of "The Miracle," during her New York and Boston productions, photographed with her husband, Captain Alfred Duff Cooper, D.S.O. (left), Viscount Ednam and his son William Ward, at Windsor Street Station, Montreal, on her first visit to Canada. The party are on an extended trip through Canada, as far as Vancouver, with a long stay at the Nipigon Bungalow Camp. Lady Diana thought the talkies would "hot out" the legitimate stage and observed "people still appear to be building ordinary theatres."

MISSIONARY FROM NORTH

Rev. L. E. Atkinson, eight years a missionary among the northern Cree at Oxford House, Man., a post one week's travel beyond the north end of Lake Winnipeg, is one of the commissioners elected to the general council of the United Church of Canada, meeting in London, Ont., in September. He was born near Stouffville, Ont., and attended Victoria College, Toronto.

Colleges For Firemen

Future Fire Fighters Will Be Specially Trained In Profession

Winnipeg, Man.—Firemen of the future will be graduates of fire colleges where they will receive highly specialized training in all phases of their profession, Chief Ralph J. Scott, president of the International Association of Fire Chiefs, declared before the first biennial session of the Fire Chiefs' convention here.

He said that during the past year he had devoted every effort to furthering the idea of the fire college endorsed by the international convention when it met last year at Birmingham, Ala. Officers of the Los Angeles, Cal. Fire College—first of its kind to be organized—explained methods of instruction at the school.

Girl Swims English Channel

Nineteen-Year-Old Maid From Africa Performs Difficult Feat

Dover, England.—Nineteen-year-old Miss Duncan, South African girl swimmer, ranked among the few mermaids who have made the difficult swim across the English Channel, although she was talked in her purpose of beating Gertrude Ederle's time in accomplishing the feat.

Miss Duncan, who weighs 200 pounds, landed at South Foreland, England, after swimming from Cape Gris Nez, France, in 16 hours and 15 minutes. Miss Ederle's record is 14 hours and 25 minutes.

Timber Cutting Stopped

Ottawa, Ont.—On the request of the Premier of Saskatchewan, Hon. Thomas G. Murphy, Dominion Minister of Interior, has ordered no more licenses or permits to cut railway ties, pulpwood and other timber be granted in the province of Saskatchewan, prior to October 1, next. It is on that date that the province takes over administration of its natural resources.

Increased Population

Toronto, Ont.—The population of Toronto has increased 15,228 within the last year according to the assessment commissioners report. The total population of Toronto is 621,596.

Canadian Ace Killed

Captain Dickie Meets Death In Accident Near Fort William

Fort William, Ont.—Captain James A. Dickie, Canadian war flier, died when his plane swooped earthward and crumpled its nose in the rough forest land ten miles from the outskirts of Fort William. Eighteen-year-old Martin Swain, who was flying with Capt. Dickie at the time of the crash, lies in hospital here in a critical condition.

Cause of the accident, witnessed by only a few persons, could not immediately be determined. It is believed that the Gypsy Moth, a machine familiar to the war ace, swung into spin from which it could not be extricated. Position of the passengers in the debris did not indicate to rescuers which one was piloting the plane when the accident occurred. Miss Swain recently obtained her student pilot's license.

Capt. Dickie, only recently named secretary of the Flying Clubs Association of Canada, was well-known among Canadian airmen. He had previously been instructor of the Fort William Flying Club. Formerly a resident of Winnipeg, he came to the lake head six years ago and operated a drug store in Fort William. Only a few months ago he was married to Miss J. Burnett, of Fort William.

A Golf Marvel

Consecutive Hole-In-One Title Is Received By Married Couple

Saskatoon, Sask.—Up at the little town of Waldron in northeast Saskatchewan, R. L. Penny and his wife lay claim to the consecutive hole-in-one title for married couples.

Mr. Penny slapped a drive from the fifth tee on the Stella course and spaced as he saw the golf ball roll into the cup. His chest was still expanding as his wife brushed him aside and teed up her ball. A swing, a smack, and the white sphere bounded toward the pin, rolled about the rim of the cup and dropped in beside its mate.

Mr. Penny says imitation is flattery's sincerest form. Mrs. Penny claims the female of the species is as ready on the drive—as the male.

FEDERAL PLAN TO PROVIDE WORK FOR UNEMPLOYED

Ottawa.—"Work, not charity"—this is the basis upon which the government is proceeding in its effort to deal with the unemployment problem. Thus declared Hon. R. B. Bennett, Prime Minister, in the House of Commons.

Before the House in committee, the Premier explained the government's proposals for spending the \$20,000,000 which he is asking parliament to vote. These include building of public works, such as wharves, bridges, etc., which are national undertakings but which would not of necessity have been started immediately except to relieve the present situation.

It is proposed to assist the provinces in connecting up the unfinished portions of the trans-Canada highway, and in this connection the prime minister suggested that assistance might also be given out of the federal treasury for the maintenance of highways connecting provinces.

The railway companies have been asked to inform the government what works they can undertake. Mr. Bennett stated, and assistance would be decided upon in relation to the cost of such undertakings. The question of the Peace River outlet will be left over, he said, until the next session of parliament, which would be called soon after the new year.

The Dominion government will deal directly with the provinces in its assistance to public works of a provincial or municipal nature, and also in granting one-third of the amount expended in cases where municipalities have to provide relief other than that of giving employment.

The amendments to the customs act respecting dumping are expected to relieve considerably the unemployment situation by giving employment in a few weeks, Mr. Bennett hoped, to some 25,000 men now out of work.

Information received from the various provinces of Canada indicates that there are now 117,000 people out of work in the Dominion. There is a prospect that this number may be increased to 177,000 during the coming winter. Mr. Bennett gave the above figures indicative of the scope of the unemployment problem in the Dominion.

BRIAND MAKES STRONG PLEA FOR A UNITED EUROPE

Geneva, Switzerland.—Aristide Briand, French foreign minister, turned his idea for a federation of European states to the assembly of the League of Nations in an atmosphere of warm admiration for himself and friendly sympathy for the principle of European collaboration.

In his address he attempted no pilage, or directing, but left it to the nations themselves to establish its definite form. He contented himself with arguing the necessity of some closer federal bond between the states of the old continent, and in asserting emphatically that neither the League of Nations, the United States, nor any other legitimate regional or international grouping would find it inimical.

It was regarded as likely the plan as outlined in M. Briand's memorandum of May 17, to the various nations and the responses of the powers will be submitted to a committee for study and action.

M. Briand recalled that when he first laid the idea before the world he had insisted his proposed federation must be within the framework of the League of Nations. He repeated today that it must rest there.

"We have the unhappiness to inhabit a continent that has suffered a great disaster," he said. "Is there something that can be done for peace? Can these people organize to prevent war?"

He said that he knew and realized it would be difficult always to found a union among people so different, but that real good-will would find a solution.

He concluded that the union would run counter to or be in any way inimical to the United States. Statesmen had told him on the other hand, he declared, that relations between Europe and America could more easily be strengthened by existence of an European organization.

"Twenty-seven nations have studied this question," he concluded. "Twenty-seven nations have said 'Yes, it can be done.' There it is before you. Go. March on. Accomplish peace."

Would Use Domestic Coal

Efforts To Be Made To Utilize Canadian Coal For Home Market

Ottawa, Ont.—Efforts to ensure Canadian coal will be utilized to supply Canadian wants, are being made by the government in the House of Commons. Premier R. B. Bennett stated that the government hoped to make some arrangement that would ensure the utilization of Nova Scotia, Alberta and British Columbia coal in Canada.

The prime minister stated that subsidies given in connection with the transportation of Canadian coal had lapsed. Negotiations, however, were under way for the purpose of ensuring the utilization of Canadian coal.

Grain Exports From Vancouver Higher

August Shipments Reported To Be Higher Than Any Recorded

Vancouver, B.C.—Grain exported from Vancouver during the month of August totalled 2,933,519 bushels, almost 600,000 bushels more than was exported in August, 1928, when grain shipments reached a peak of 95,000 bushels from this port.

Last month export to the Orient totalled 550,732 bushels, compared with 680,221 bushels in August two years ago.

Starving Boys Steal Biscuits

Montreal, Que.—Unable to buy food, three boys took three boxes of soda biscuits from a local grocery store. They were arrested and turned over to the juvenile court. The youths told police they had not had a proper meal for a month and were starving. A visit to their homes showed squalor and starvation.

Rumanian Heads League

Geneva, Switzerland.—The 11th assembly of the League of Nations elected Michaila Titulescu as its president. M. Titulescu has been Rumanian minister at St. James. The vote was 50 for Titulescu, 50 for valid votes. Names and votes of other candidates were not announced.

To Meet In Boston

Houston, Tex.—The 1931 convention of the International Typographical Union will be held at Boston. It was decided at the 57th annual convention here.

PRIZE WINNERS AT THE
1930 BELLEVUE EXHIBITION

Following is a complete list of prize winners of the 19th annual exhibition, held under the auspices of the Bellevue and District Horticultural, Industrial and Poultry Society, at Bellevue on Labor Day:

Best garden display of vegetables—1st, J. T. Clayton; 2nd, G. W. Goodwin.

Best collection of vegetables—1st, G. W. Goodwin; 2nd, J. Curry.

Potatoes, round white—1st, M. B. Walker; 2nd, S. Humble; 3rd, H. Instone.

Potatoes, round colored—1st, S. Humble; 2nd and 3rd, G. W. Goodwin.

Potatoes, kidney white—1st, H. Robinson; 2nd, M. B. Walker; 3rd, G. W. Goodwin.

Potatoes, kidney colored—1st and 2nd, G. W. Goodwin; 3rd, J. Radford.

Collection of potatoes—1st, G. W. Goodwin.

Potatoes, any other variety—1st, J. Radford; 2nd, Mrs. Kneisky; 3rd, S. Humble.

Potatoes, best marketable—1st and 2nd, J. Radford; 3rd, M. B. Walker.

Cauliflower—1st, L. Fauvill; 2nd, J. Dawson; 3rd, G. W. Goodwin.

Conical cabbage—1st, L. Fauvill; 2nd, G. W. Goodwin; 3rd, J. T. Clayton.

Flat cabbage—1st, Mrs. Kneisky; 2nd, L. Mottile; 3rd, J. Gerrard.

Round cabbage—1st and 3rd, L. Mottile; 2nd, J. T. Clayton.

Savoy cabbage—1st, J. Renner; 2nd, L. Mottile; 3rd, L. Fauvill.

Red cabbage—1st, L. Fauvill; 2nd, R. Glover; 3rd, G. W. Goodwin.

Curly Kale—1st, J. Boyle; 2nd, D. Richards; 3rd, L. Mottile.

Kohl rabi, white—1st, Mrs. Kneisky; 2nd, J. Cousins; 3rd, J. Curry.

Kohl rabi, blue—1st and 2nd, J. Curry; 3rd, J. T. Clayton.

Turnip, swede—1st, L. Fauvill; 2nd, H. Robinson; 3rd, R. Glover.

Turnip, white—1st, J. Gerrard; 2nd and 3rd, J. T. Clayton.

Turnip, yellow—1st, J. Gerrard; 2nd, G. W. Goodwin; 3rd, E. Cole.

Carrots, long—1st, Watt Goodwin; 2nd, J. D. McDonald; 3rd, W. Prescott.

Carrots, short—1st, L. Fauvill; 2nd, J. Gerrard; 3rd, R. Glover.

Carrots, intermediate—1st and 2nd, J. Curry; 3rd, J. Gerrard.

Leeks—1st, G. W. Goodwin; 2nd and 3rd, J. Boyle.

Onions, from sets—1st, J. T. Clayton; 2nd, R. Glover; 3rd, J. Gerrard.

Onions, white, from seed—1st, 2nd and 3rd, J. T. Clayton.

Onions, yellow, from seed—1st, 2nd and 3rd, J. T. Clayton.

Onions, red, from seed—1st, 2nd and 3rd, J. T. Clayton.

Shallots—1st, G. W. Goodwin; 2nd and 3rd, J. T. Clayton.

Multiplicans—1st and 2nd, J. T. Clayton; 3rd, G. W. Goodwin.

Pickling onions—1st, 2nd and 3rd, R. Glover.

Beets, long—1st, M. B. Walker; 2nd, E. Cole; 3rd, Watt Goodwin.

Beets, any other variety—1st, G. W. Goodwin; 2nd, J. Curry; 3rd, J. Cousins.

Paranips—1st, J. Boyle; 2nd, G. W. Goodwin; 3rd, J. Curry.

Salsify—1st, J. T. Clayton; 2nd and 3rd, J. Radford.

Radish, white—1st, J. Boyle; 2nd and 3rd, J. T. Clayton.

Celery, white—1st and 2nd, J. Radford; 3rd, J. Gerrard.

Celery, red—1st, 2nd and 3rd, G. W. Goodwin.

Lettuce, curled—1st and 2nd, J. Boyle; 3rd, L. Fauvill.

Lettuce, cabbage—1st and 3rd, Watt Goodwin; 2nd, L. Fauvill.

Collection of peas in pod—1st and 2nd, H. Instone; 3rd, J. T. Clayton.

Long pod broad beans—1st and 2nd, M. B. Walker; 3rd, H. Instone.

Pods with beans—1st, J. Gerrard; 2nd, J. D. McDonald; 3rd, G. W. Goodwin.

Pods dwarf beans—1st and 3rd, H. Instone; 2nd, G. W. Goodwin.

Pods runner beans—1st and 2nd, J. T. Clayton; 3rd, D. Morris.

IT'S WISE TO CHOOSE A SIX

2,000,000 Six-Cylinder Chevrolets now on the road

SINCE January, 1929, Chevrolet has produced and sold over 2,000,000 six-cylinder automobiles—nearly five times as many as any manufacturer of sixes has ever built in an equal length of time.

Such record-breaking public preference shows how buyers of low-priced cars are demanding the advantages of six-cylinder design. These 2,000,000 people decided on Chevrolet largely because of the following facts:

Chevrolet is Smoother

A six-cylinder engine is smoother, quieter, more flexible—free from annoying vibrations—requires less gear-shifting. And Chevrolet gives you a dependable, 50-horsepower, six-cylinder power plant!

More Comfortable, Smarter

Chevrolet is the lowest-priced Six which offers you a rugged full-length chassis with modern semi-elliptic spring suspension—big bodies with form-fitting seats—the style and luxury advantages of Body by Fisher.

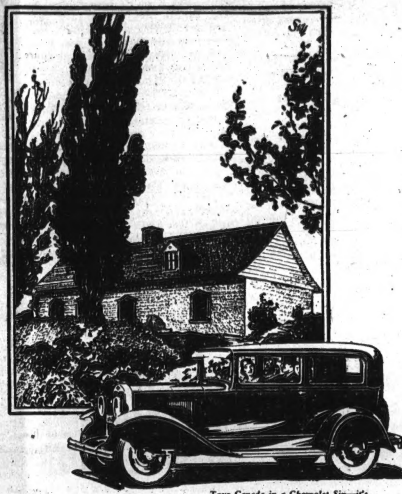

Easy to Buy and Own

The Chevrolet Six is priced as low as \$635, at the factory. And you will find it costs no more for operation or upkeep than any other car of comparable quality on the road. You may purchase through the C. M. A. C. General Motors' own deferred payment plan. The General Motors Owner Service Policy will safeguard your investment.

ROADSTER or PHANTOM
\$635

Prices at factory, Oshawa, Texas, bumper and spare tire extra. A complete line of Commercial Cars and Trucks from \$485 up.

The Sport Roadster - \$715
The Coupe - 740
The Coach - 750
The Super Sport Roadster - 795
The Six (with wheels standard) - 810
The Club Sedan - 840
The Sport Sedan - 860
The Sedan - 870
The Super Sedan - 890
(Six wheels standard)

Time Canada in a Chevrolet Six—its all-weather record. One of Canada's many points of historic interest—Wolfe's Headquarters, near St. Jean, on the Quebec-St. Simon Highway.

IT'S BETTER BECAUSE IT'S CANADIAN

Short pods broad Windsor beans—

1st, J. Curry; 2nd, J. Bovio; 3rd, M. B. Walker.

Cucumbers, frame—1st, F. Padgett; 2nd and 3rd, G. W. Goodwin.

Cucumbers, ridge—1st, F. Padgett; 2nd, J. Curry; 3rd, H. Robinson.

Rhubarb—1st, G. W. Goodwin; 2nd and 3rd, J. Boyle.

Swiss chard—1st, L. Fauvill; 2nd, J. Boyle; 3rd, W. J. Harris.

Vegetable marrow, white—1st, M. J. Walker; 2nd, A. Hallworth; 3rd, J. Allsopp.

Vegetable marrow, green—1st, M. J. Walker; 2nd, D. Morris; 3rd, J. Boyle.

Pumpkin—1st and 2nd, J. Bovio; 3rd, J. Boyle.

Sweet corn—1st, 2nd and 3rd, J. Curry.

Roots of parsley—1st, J. Boyle; 2nd and 3rd, G. W. Goodwin.

Mangel wurzel—1st, J. Radford; 2nd and 3rd, E. Cole.

Collection of herbs—1st, J. T. Clayton; 2nd, M. B. Walker; 3rd, E. Cole.

Peppers—1st, J. Boyle; 2nd, J. Carney; 3rd, J. T. Clayton.

Egg plant—1st, 2nd and 3rd, J. Carney.

Tomatoes, red—1st and 3rd, J. Allsopp; 2nd, G. W. Goodwin.

Tomatoes, yellow—1st, J. Carney; 2nd, J. Boyle; 3rd, D. Morris.

Tomatoes, green—1st, J. Bovio; 2nd, S. T. Humble; 3rd, J. T. Clayton.

Tomatoes, any fancy variety—1st, J. Curry; 2nd and 3rd, J. Carney.

Peas, shelled—1st and 3rd, G. W. Goodwin; 2nd, J. T. Clayton.

Squash, Hubbard—1st, J. Boyle; 2nd, M. B. Walker; 3rd, J. T. Clayton.

Squash, any other variety—1st, 2nd and 3rd, M. B. Walker.

Citron—1st, J. T. Clayton; 2nd, J. Boyle.

Melons—1st and 2nd, J. Curry; 3rd, J. Carney.

Any other variety of vegetables—1st and 3rd, J. Carney; 2nd, J. T. Clayton.

Any other variety of vegetable fruit—1st, J. T. Clayton.

Any variety of fruit—1st and 2nd, S. T. Humble; 3rd, J. T. Clayton.

Heads of wheat—1st and 2nd, C. Johnson; 3rd, H. Robinson.

Heads of barley—1st and 2nd, C. Johnson; 3rd, G. Heal.

Heads of oats—1st, G. Heal; 2nd and 3rd, C. Johnson.

Heads of grasses—1st, G. Heal; 2nd, E. Hagglund; 3rd, H. Robinson.

Roots of alfalfa—1st, G. Heal.

Flowers

Best artistic display of garden flowers—1st, F. Padgett.

Best bouquet of garden flowers—1st, F. Padgett; 2nd, Mrs. S. Humble; 3rd, B. Milnes.

Best arranged bouquet of garden flowers—1st, F. Padgett; 2nd, Mrs. S. Humble; 3rd, S. Humble.

Asters, any color—1st, W. Prescott; 2nd, B. Milnes; 3rd, E. Cole.

Asters, four colors—1st, B. Milnes; 2nd, F. Padgett.

Pansies, collection—1st and 2nd, F. Padgett; 3rd, B. Milnes.

Pansies, one color—1st and 3rd, F. Padgett; 2nd, G. W. Goodwin.

French marigolds—1st and 3rd, J. Boyle; 2nd, J. Curry.

African marigolds, lemon—1st, J. T. Clayton; 2nd and 3rd, E. Cole.

African marigolds, orange—1st and 2nd, E. Cole; 3rd, G. W. Goodwin.

Carnations—1st, 2nd and 3rd, J. Boyle.

Dahlias, four colors, any variety—1st, G. W. Goodwin; 2nd, J. Boyle; 3rd, J. D. McDonald.

Show dahlias—1st, J. D. McDonald; 2nd, E. Cole; 3rd, J. Radford.

Pompom dahlias—1st and 2nd, J. T. Clayton; 3rd, W. Prescott.

Cactus dahlias—1st, J. D. McDonald; 2nd, J. Radford.

Decorative dahlias—1st, J. Boyle; 2nd, G. W. Goodwin; 3rd, J. D. McDonald.

Dahlias, four varieties—1st and 2nd, J. Boyle; 3rd, J. Radford.

Dahlias, best bloom—1st, G. W. Goodwin; 2nd, J. T. Clayton; 3rd, J. D. McDonald.

Stocks, three plants—1st and 2nd, J. T. Clayton; 3rd, B. Milnes.

Stocks, collection—1st, H. Instone; 2nd and 3rd, J. T. Clayton.

Best six bunches of sweet peas—1st, H. Instone; 2nd, M. B. Walker; 3rd, J. Curry.

Best bouquet of sweet peas—1st and 3rd, J. Curry; 2nd, M. B. Walker.

Best arranged bouquet of sweet peas—1st, J. Curry; 2nd, H. Instone; 3rd, F. Padgett.

Zinnias—1st and 3rd, J. Boyle; 2nd, F. Padgett.

Phlox, dromedarii—1st and 2nd, E. Cole; 3rd, B. Milnes.

Phlox, perennial—1st, J. Curry; 2nd, J. T. Clayton; 3rd, S. T. Humble.

Petunias, double—1st, H. Instone; 2nd and 3rd, J. T. Clayton.

Petunias, single—1st, J. Curry; 2nd, M. B. Walker; 3rd, J. T. Clayton.

Snapdragon—1st, 2nd and 3rd, F. Padgett.

Roses—1st, J. Gerrard; 2nd and 3rd, H. Instone.

Nasturtiums—1st, C. Johnson; 2nd, E. Cole; 3rd, J. T. Clayton.

Gladiolus—1st and 3rd, F. Padgett; 2nd, Watt Goodwin.

Gladiolus, one spike—1st, B. Milnes; 2nd and 3rd, F. Padgett.

Hollyhocks—1st, 2nd and 3rd, J. Boyle.

Balsam—1st, G. W. Goodwin; 2nd and 3rd, J. Carney.

Salpiglossis—1st, F. Padgett; 2nd and 3rd, E. Cole.

Collection of annuals—1st, J. Boyle; 2nd, S. T. Humble; 3rd, B. Milnes.

Perennials—1st, E. Cole; 2nd, M. B. Walker; 3rd, J. T. Clayton.

Coxcomb—1st and 3rd, J. Carney; 2nd, G. W. Goodwin.

Celosia—1st and 2nd, G. W. Goodwin; 3rd, J. Curry.

Fern—1st, S. T. Humble; 2nd, J. T. Clayton; 3rd, F. Padgett.

House plants—1st, J. Carney; 2nd, Mrs. Lamey; 3rd, J. T. Clayton.

Best collection of house plants—1st, Mrs. J. Kerr; 2nd, F. Padgett; 3rd, J. T. Clayton.

Begonia—1st and 2nd, J. T. Clayton; 3rd, F. Padgett.

Geranium—1st, J. T. Clayton; 2nd and 3rd, J. Carney.

Plant, any other variety—1st, Mrs. W. J. Harris; 2nd, Mrs. J. Kerr; 3rd, E. Cole.

Bouquet of wild flowers, school children—1st, Elsie Brooks; 2nd and 3rd, Ethel Clayton.

Industrial Section

Hand wood work—3rd, D. McLafferty.

Amateur photography—1st and 2nd, Mrs. T. Nanson.

Best set of art in grade VIII—1st, Flora Boutry; 2nd, A. Litherland; 3rd, G. Goodwin.

Poultry Section

Best pen of poultry, any variety—1st, R. Glover.

Barred plymouth rock cock, dark—1st and 3rd, R. Glover.

Barred plymouth rock hen, dark—1st, L. Dambois; 2nd and 3rd, R. Glover.

Barred plymouth rock hen, light—1st, H. Riva.

Barred plymouth rock cockerel—1st and 2nd, R. Glover; 3rd, J. Renner.

Barred plymouth rock pullet—1st, R. Glover; 2nd and 3rd, E. Cole.

Rhode Island red cock, rose comb—1st, L. Dambois.

Rhode Island red hen, single comb—1st, D. Sudworth.

Rhode Island red pullet—1st and 2nd, G. Reid; 2nd, D. Sudworth.

Rhode Island red cock—1st, D. Sudworth.

White wyandotte cock—1st, J. Carney.

White wyandotte hen—1st, 2nd and 3rd, J. Carney.

White wyandotte cockerel—1st, 2nd and 3rd, F. Glover.

White wyandotte pullet—1st and 2nd, J. Gerrard; 3rd, D. Richards.

White leghorn cock, single comb—2nd, E. Cole.

White leghorn hen, single comb—1st, H. Riva; 2nd, E. Cole; 3rd, R. Glover.

White leghorn cockerel, single comb—1st and 2nd, R. Glover; 3rd, E. Cole.

White leghorn pullet, single comb—1st, G. Reid; 2nd, R. Glover; 3rd, E. Cole.

Black minorca cockerel—1st, L. Dambois.

Black minorca pullet—1st, L. Dambois; 2nd and 3rd, G. Reid.

Turkey, male—1st, G. Reid; 2nd, D. Sudworth.

Turkey, hen—1st, L. Dambois; 2nd, D. Sudworth.

Guinea fowl—1st, H. Riva.

Cockerel, any other variety—1st, H. Riva.

Pullet, any other variety—1st, E. Cole.

Best utility cock—1st and 2nd, R. Glover.

Best utility hen—1st, L. Dambois; 2nd, F. Glover; 3rd, R. Glover.

Bantams—1st, G. Reid.

Pigeons—1st, J. Allsopp; 2nd and 3rd, E. Litherland.

Canaries—1st, 2nd and 3rd, Mrs. Olivier.

Rabbit, buck any variety—1st, J. Renner.

Rabbit, special, class 170a—1st, and 2nd, H. M. Sturbant.

Rabbit, doe, any variety—1st, 2nd and 3rd, H. M. Sturbant.

White buck—1st, J. Ferneau.

White doe—1st, J. Ferneau.

Beverine buck—1st, J. Radford.

Beverine doe—1st and 2nd, H. M. Sturbant.

Castor doe—1st, 2nd and 3rd, J. Renner.

Flemish giant buck—1st, E. Cole.

Flemish giant doe—1st, E. Cole.

Capon—1st, J. Renner.

Love birds—1st, Mrs. W. J. Harris.

Brown leghorn cockerel—1st and 2nd, D. Richards.

Brown leghorn pullet—1st, D. Richards; 2nd, J. Bovio.

Best male bird in show—R. Glover.

Best cockerel in show—E. Cole.

Best pullet in show—J. Gerrard.

Best hen in show—G. Reid.

Ladies' Section

Hand-made rug—1st, Mrs. Hagglund; 2nd, Mrs. F. Fisher; 3rd, Mrs. A. McDonald.

Rug, special, class 173a—2nd, Mrs. A. Rhodes

800 DIE WHEN HURRICANE HITS SANTO DOMINGO

SAN JUAN. — Governor Roosevelt was informed that 800 were dead in the city of Santo Domingo alone as the result of the tropical hurricane, with no part of the interior of the Dominican Republic being from.

The governor's information came from Major Cary L. Crockett, who flew from San Juan to the Dominican capital.

Major Crockett's estimate was made after he had conferred with President Trujillo and Charles B. Curtis, American minister.

Major Crockett radioed Governor Roosevelt that the American minister with his staff and the Americans were saved, but that the American legation was destroyed.

He said that three-quarters of the houses were practically destroyed and that the entire city was badly damaged.

The 800 deaths were estimated by President Trujillo. That many had been counted at the time of the conference and it was indicated that the number in the city might go higher, with the remainder of the country yet to be heard from.

Hundreds of others were injured, but the message did not attempt to estimate the number.

Major Crockett said there was urgent need for physicians, medical supplies, tents, pots, blankets, clothing and 50,000 to 100,000 rations. He added that funds from the Red Cross also were badly needed.

Santo Domingo, Dominican Republic. — In this beautiful old city, all but wiped out by a hurricane, relief forces struggled with a task of success that taxed their utmost efforts.

Half of the first new world settlement of the white race is in ruins. Homes, business blocks, public buildings, power facilities and the bridge spanning the Ozama River have been battered and twisted into jumbled wreckage.

No authoritative source could estimate with reasonable accuracy the millions of dollars of property that had been converted into debris in the short space of the storm's passing.

Aeroplane crashed over the scene of ruin and gave the world the first view of the catastrophe. Later planes were launched for other planes of maximum capacity to transport from Port Rico and elsewhere every possible form of relief, including medical supplies.

Santo Domingo city faced a water famine, impelling its 40,000 or more inhabitants to dig for water with gun to send fresh water in from island points by overland truck transport.

The storm that hit Santo Domingo raged for more than four hours. It came a wide swath across the eastern end of the island. Its nature was terrible, according to frightened inhabitants who are still stunned by the immensity of the atmospheric disturbance.

Lighted Airways

There Are Already 900 Miles of Lighted Airways in Canada

Toronto, Ont.—Hope that before many years have passed Canada will have a trans-continental airway that is second to none was expressed by A. Wilson, controller of civil aviation, Ottawa, principal speaker at the aviation and international day luncheon of the Canadian National Exhibition.

Already there are 900 miles of lighted airways in Canada, stated Mr. Wilson, for night flying, and 300 more miles are being added this year.

Soviet Government Must Pay

Court Awards Thirteen Million Pounds Sterling To English Firm

London, England.—The Russian Soviet Government will pay "The Los Goldfields," an English firm, about thirteen million pounds sterling under the terms of a ruling of an arbitration court here. The company alleged their offices, operated under contract from the Russian Government, had been raided by secret police and that in other ways they had been prevented from living up to the terms of their agreement.

Will Fly Back To Paris

New York.—The Question Mark, flown from Paris to New York by Coste and Bellonte, will be flown back from New York to Paris by Paul Gordier, French aviator, as soon as Coste and his comrade has completed flights in the plane to Dallas, Texas, and to Washington, it has been announced.

W. N. H. 1854

Charged With Murder

Constable Pirt To Be Tried At Fall Assizes At Dauphin

Dauphin, Man.—On a charge of murder, Constable John W. Pirt, of the Royal Canadian Mounted Police, Yorkton, Sask., will be tried at the fall assizes of the Court of King's Bench, here.

The constable was committed for trial following a preliminary hearing before Magistrate Robert Hawkins, in the Dauphin County Court recently. He is charged with the murder of Mrs. Sophie Light, of Ipswich, South Dakota, fatally wounded at an inter-provincial picnic, 65 miles from here, Labor Day.

The evidence given at the preliminary hearing was similar to that of the inquest. Witnesses testified that, contrary to regulations, Pirt had been drinking and was "very intoxicated" at the time of the shooting.

A statement obtained from Mrs. Light shortly before she died in the local hospital was presented by the Crown prosecutor. In it, the woman said she had met the constable only two minutes before the shooting. He drew his gun from a holster, and she asked him not to point it at her. "Don't point at me," she said. "I don't like it, the woman had told the constable. A second later the revolver discharged, and Mrs. Light fell to the ground, a bullet wound in her abdomen.

Pirt was not called upon to testify, nor were any witnesses called for the defence.

Aviator Breaks Own Record

Squadron Leader Cowley Makes Better Time In Recrossing Rockies

Regina, Sask.—Records made to be broken. And Squadron Leader A. T. Cowley, of Ottawa, with J. A. Dickie, Fort William, secretary of the Association of Flying Clubs, unsurprisingly broke the record they themselves had established recrossing the famed Canadian Rockies by aeroplane on August 30, it was revealed on their arrival at the Regina airport on September 2.

Flying a Stearman biplane belonging to Inspector L. D. McLean, Regina, of the Department of Civil Aviation, they made the distance of over 500 miles eastward crossing in four hours and 30 minutes. A few days previously they had created a record by flying from Calgary to Vancouver in five hours and 35 minutes.

Squadron Leader Cowley is superintendent of aerodromes in the Dominion and his record-breaking feat came only in the regular course of his work.

"Boothic" Reaches Pond Inlet

Lands Supplies For Northern Post After Severe Trip

Ottawa, Ont.—After two weeks of battling with heavy ice in the attempt to reach Melville Island and return eastward along Lancaster Sound and Barrow Strait, the S.S. Boothic, bearing the Department of the Interior's Arctic expedition, reached Pond Inlet in safety on September 1, but owing to a heavy northerly gale, was unable to land supplies for the post there until evening, according to radio messages received here. Pond Inlet is the most northern government post in Baffin Island and one of the most important in the archipelago.

G. C. Mackenzie, officer, in sending his wireless message to the director of the North West Territories and Yukon branch, reported all were well at the post and that there had been a large amount of patrol activity.

Raise Fund For Widow

Family Of Montreal Constable Killed While On Duty, Will Be Provided For

Montreal, Que.—Enabling the family of Constable Dollard Pelletier to live without serious privation and permitting the children to be educated, a fund opened by a local newspaper and a broadcasting station raised \$16,392.

The constable was shot down on duty when he entered a store in which he suspected a burglar was working, and died in hospital shortly afterwards.

The money has been placed with a trust company, the interest to be spent on the family's maintenance. The constable left a widow and six children.

Big Cheque For Mother

Toronto, Ont.—Sudden wealth has not affected Martha Nelson, 10-year-old winner of the C.N.E. marathon, and 16-mile swimming champion of the world. When he received his cheque for \$7,400, his portion of the \$15,000 prize, he bought a draft for the full amount and sent it to his mother in Fort Dodge, Iowa.

French Flyers Feted

Hailed By New York As Latest Giants Of Aviation

New York, N.Y.—Two little men of modest manner were hailed by all New York as the latest giants of aviation.

At a luncheon in their honor, on a ride around the harbor, in a parade through the streets, and at city hall, Frenchmen Coste and Bellonte were given tumultuous greetings that might have turned any head. But it didn't turn theirs. On they smiled, they waved, they said they were having a grand time. But quite evidently they remained, from their own viewpoint, just a couple of fellows who had tackled a tough job and had the good fortune to succeed.

"You may be especially proud," Mayor Walker told the French flyers in the aldermanic chamber at city hall, "that your great achievement is not only a wonderful accomplishment in itself but also is the final justification of the ill-fated attempt of your countrymen, Nungesser and Gollé."

After the mayor had delivered his welcome and congratulated them on turning the north Atlantic from a one-way street into a two-way thoroughfare, the procession proceeded uptown to the flyers' hotel.

After the Texas flight, Coste announced recently, his famous flying Question Mark will be flown back to France by Paul Codos, who holds jointly with him several world records for distance flying.

GREAT FUTURE FOR CANADA SEEN BY SIR G. FOSTER

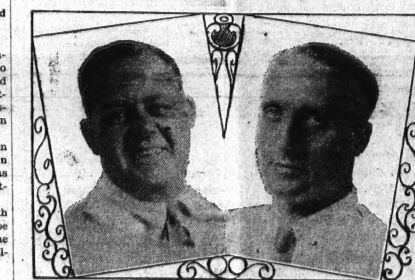

Ottawa, Ont.—The tremendous advance which Canada has made since Confederation, and the fact that even now those who are most intimately associated with the development of the Dominion have hardly penetrated to a complete realization of Canada's great future, were the two outstanding elements which struck Sir George Edgar Foster, the veteran statesman and administrator, most forcibly recently. Born on September 3rd, 83 years ago, Sir George, who has just returned from a three months holiday in British Columbia, was spending his birthday at home, the recipient of many congratulatory messages. In spite of his four-score years, Sir George continues to enjoy excellent health and has lost little of the vigor which characterized him in the days when he fought many a dogged campaign and broke many a lance in the political lists.

"The great contrast noted," declared the veteran statesman, "is the fact that in Western Canada particularly, you have a country of homes. When I travelled across the Dominion many years ago, one exclaimed with joy the sight of farm shacks, some ten, fifty and even one hundred miles distant from their neighbors.

"In a sense the people who inhabited those plains were nomads. But now one sees great cities and settled farming districts."

Sir George was impressed with the work which the western farmers have put into tree-planting around their homes, contrasting as it did, with the bleak and featureless prospect which had characterized the prairie farm-house of the early days. He mentioned the city of Brandon as a striking example where the residents had turned their streets into broad avenues whose trees were outspread in luxurious foliage.

Missed Trophy by One Punt.

A six foot putt separated Dave Arnott, of Winnipeg, from the Prince of Wales Trophy, coveted prize of the recent Banff Springs Hotel Golf Course Tournament, in the last round of the finals. He was one up on the day's play. Both he and his opponent, W. J. "Bill" Thompson, of Toronto, made good tee drives and their second landed them on the green. Arnott, six and Thompson five feet from the flag. Arnott's ball hovered on the lip of the cup, but Thompson sank his putt. This evened the match, but another hole was played, Thompson winning easily and taking one of the most sought-after prizes in Canadian golfing. Photo shows Thompson (left), and Arnott (runner-up).

Dr. Helen MacMurphy, of Toronto, who is author of booklet issued by Department of Health, which warns parents that preparedness must be watched to successfully combat threat of infantile paralysis epidemic, which has been alarming residents of Ontario.

Aviators Encounter Bad Weather

Major Burwash Delayed In Flight To Coronation Gulf

Winnipeg, Man.—Checked by poor flying conditions, Major L. T. Burwash, famous northern wanderer, and the pilot of his seaplane, W. E. Gilbert, are held to the ground at Bernard Harbor, far up in Dolphin Strait. The intrepid two are waiting for the weather to clear up before leaving on their aerial journey to King William Land, or if the weather still held the upper hand, to return to Fort Heame before the freeze-up.

On August 25, Burwash and his companion set out from Hearse, an outpost on Coronation Gulf, for King William Land. It was here that Sir John Franklin's ill-fated expedition of 129 men met death. Major Burwash hoped to make a photographic survey of the shore line for the Dominion Government.

With the most dangerous flying season just around the corner, officials of Western Canada Airways here were unable to state whether or not Major Burwash will discontinue his flight.

On September 10, however, he will be on his way out of the Arctic and able to radio from Coppermine. Until then, his movements will be shrouded in silence. W. A. Buchanan, Western Canada Airways pilot, communicated with his headquarters from Hunter Bay recently, simply stating that the pair were weather-bound at Bernard Harbor, and would be unable to give their position until September 10. Buchanan is standing by in case he should be needed.

Would Trade With India

German Manufacturers Anxious To Seize Markets Closed To Britain

Leipzig, Germany.—Authorities on international trade said here that the time is ripe for German manufacturers to seize Indian markets closed to the British as an outcome of Mahatma Gandhi's boycott movement.

Spokesmen said Germany enjoys a unique advantage in the Orient because she has no colonies there and so avoids the racial friction hampering other nations. They said numerous trade inquiries furnished ample evidence that India is willing to do business with Germany in lines of merchandise hitherto monopolized by the British.

Well-Known Pilot

Killed At Toronto

Captain Charles Sutton Crashed Into Lake From Low Altitude

Toronto, Ont.—Captain Charles Sutton, well-known Toronto pilot and Canadian war veteran, was killed when the Fokker seaplane he was flying in the Efficiency Challenge Trophy race at the Canadian National Exhibition, crashed into Lake Ontario from a low altitude.

The accident occurred in full view of thousands of spectators.

Rescuers found the plane floating bottom side up and the youthful mechanic, Claude Mills, clinging to a shattered wing in a semi-conscious condition. Sutton could not be found and it is presumed he was hurled unconscious from the cockpit and drowned.

Sutton was one of the best known fliers in Canada, particularly in the north, where he had flown nearly 100,000 miles. He was formerly chief pilot of Dominion Explorers and had supervised the placing of gas and provision caches along the route of the flight made by Col. G. D. H. McAlpine and his party, which later became marooned.

Return From Poultry Show

Two Canadian Wild Geese Make Round Trip From Brandon To London, England

Brandon, Man.—Two wild Canadian geese, members of the Exhibition Park pond here, have just completed the longest trip any birds of their species have made, while in captivity. The two birds were sent over to London, England, as the exhibit from Canada at the poultry congress. There was rather a mild suggestion attached to the exhibit that a pair of swans might be acceptable in return. But apparently the exchange was not effected, and the geese have now arrived back at their little pond quite happy to be among home surroundings once more.

WHEAT POOL MEMBERS FAVOR 100 P. C. PLAN

Regina, Sask.—Saskatchewan Wheat Pool members voted in the recent ballot on the matter of 100 per cent. pooling by legislation, are overwhelmingly in favor of such legislation, according to the result of the ballot announced from the office of the Wheat Pool here recently. The vote compiled by George Beach, city clerk for Regina, who acted as returning officer for the Pool, shows a total of 48,445 ballots cast, of which 32,653 were for the proposal, and 12,991 against. The official statement from the head office of the Wheat Pool reads as follows:

"Of approximately 83,000 ballots cast, there were 48,445 ballots returned, of which 19 were spoiled."

"The result of the ballot shows 32,653 votes for the proposal as compared with 12,991 ballots opposed. In addition there were 1,968 unreturned ballots against the proposal. Counting these, the unreturned ballots as well as those returned correctly in all respects, the vote would stand 34,621 votes for the legislation as against 13,945 opposed, or 71.3 per cent. in favor of the proposal."

At the June meeting delegates, by substantial majority, decided as a body in favor of the proposed 100 per cent. pooling legislation for Saskatchewan, and further, authorized the taking of a ballot among the Pool membership on the understanding that a majority vote of those voting in favor of the proposed legislation would be accepted as a mandate by the organization, on the basis of which the government would be approached formally with a request that such legislation be enacted. This matter, therefore, he considered by the board of directors of the Wheat Pool at its next regular meeting.

The proposed legislation, which is understood, provide that a legislative body arising out of it would be grower-controlled, and that this control would be equally divided among all growers in the province, whether at present pool or non-pool. It is further specifically understood that the legislation even when enacted should not become effective until a referendum among grain growers in the province should decide in favor of it by a two-thirds majority. Further, the pooling legislation covered by the present ballot is in no way directly related to the emergency proposal recently submitted to the Saskatchewan Government by the board of directors of the Saskatchewan Wheat Pool.

ST. LAWRENCE WATERWAY PLAN TO BE STRESSED

Ottawa, Ont.—The St. Lawrence Great Lakes waterway proposal and its relation to Canadian economic development will be the subject of a most comprehensive literary to be launched by the Association of Canada Clubs next month. Announcement of the literary was made by the national office of the association recently. Approximately 120 Canadian clubs in every section of Canada will be enlisted in the literary.

Three other literatures on the same plan are being organized, it was further announced, for the late fall, early winter and spring seasons. The subject of these literatures will be: "The British North America Act and the relations of federal and provincial powers; the relations between French and English-speaking sections of Canada, and British administration in India."

These national literatures will be supplemented by regional literatures, covering sections of Canada only, on the mechanization of western agriculture, Canadian export trade, relations between Canada and the United States, European politics and the work of the international labor office of the League of Nations.

Organizations of the nation-wide speaking tour on the public opening of the St. Lawrence waterway. Lakes waterways has been carried out by the national office on a new plan. All the addresses to be delivered by a group of 20 speakers, including the Prime Minister, will be made by university staffs, who have made a study of the question, will be based, it was stated, on an Imperial memorandum prepared by the national office. The memorandum will deal with the existing waterway, the proposed improvements, the relation of the economic structure of Canada and the treaty position existing today between Canada and the United States.

Preparation of the document has been made by the secretary of the association, Graham Spry, and has been checked by different branches of the government. It has been prepared, it was stated, so that speakers in the different sections of the Dominion may show the relation of the waterway to the industries of their sections, in addition to the memorandum, each speaker, will have the use of slides illustrating the details of the waterway, maps and charts and the essential public documents.

The group of 20 speakers will leave their respective cities and cover the neighboring Canadian clubs. Among the speakers are: George Selwidge, K.C., Prof. George Brown, Toronto; F. L. Kerr, Hamilton; H. K. Fuley, Winnipeg; D. J. Thom, K.C., Regina; J. E. MacErmid, K.C., Saskatchewan; H. G. Nolan, Calgary; Alan Harvey, Edmonton; Dean H. W. Brock and Prof. W. A. Carruthers, University of British Columbia, and other economists, barristers and editors throughout the country. In one month every Canadian club in the Dominion will be offered a lecture on the waterway problem, including clubs as far north as Grand Prairie and Peace River.

The number of Canadian Club meetings under the announced plan will total more than 600. In addition, local or branch clubs, at the principal addresses and motion pictures and lantern slides will be available for lectures in schools and new Canadian settlements.

Government Feeder Policy

British Columbia To Take Advantage Of Feeder Purchase Plan

Ottawa, Ont.—Benefits of the "feeder purchase" policy for livestock, authorized by the Hon. Robert Weir, Dominion Minister of Agriculture, have been extended to include British Columbia. Under this policy, live, one-way travel is given to the farmer, or the authorized agent of a farmer, from any point in British Columbia to (a) Kamloops, (b) the shipping point nearest a bona fide feeder in British Columbia, at which feeder the livestock is purchased, or (c) to the Moose Jaw feeder sale, October 16 to 18, or other western stockyard at which a minimum shipment is purchased, will be paid by the Dominion Government through its livestock branch.

Shows Big Increase

Ottawa, Ont.—Production of wine in Canada for the calendar year 1929 was valued at \$48,680 gallons over the previous year, it is shown in a report issued by the Dominion Bureau of Statistics. There were nine more wineries in operation and the capital investment increased by \$2,200,000.

COWLEY HAPPENINGS

Marcel Percevault, who had the misfortune to get an arm broken while running a race at the sports on school fair day at Cowley, is now in Bellevue hospital where he is favorably progressing.

Mrs. Delorier, formerly a Cowley resident, but who is now a nurse in San Francisco, is here on a visit with her parents, of Beauvais Lake district.

[Through lack of space, the list of winners at the annual school fair has been held over till next week.—Ed.]

Lethbridge golfers, about twenty strong, visited Blairmore on Sunday last to enjoy the sports course of the Crows' Nest Golf club. The result of the day's play was, Blairmore 17, Lethbridge 10.

CORBIN HAPPENINGS

Mr. W. Porter returned from a trip to Toronto, during the early part of the week.

Mrs. R. Crocker and daughter, of Spokane, U.S.A., are visiting in Corbin for a few days.

Mr. and Mrs. Davy Greeve are the proud parents of a daughter, born on Thursday of this week.

Mrs. M. Gibson arrived home from Trail on Tuesday last, where she has been spending a few days.

Mrs. R. Elliott accompanied by Mrs. A. Sheppard motored to Golden and back, over the week-end.

Mrs. W. Goss took her small son Bobbie to Fernie on Thursday last. Master Bob had his tonsils removed.

A meeting was held at Mrs. (Dr.) Elliott's home on Wednesday afternoon, for the purpose of organizing a Ladies' Guild to work in aid of the Anglican church.

On Sunday, Mr. Steve Senych met with an accident, about three miles west of Coleman on the main highway. The car was turned over, and Mr. Senych and one other passenger escaped without injury.

Mr. W. Almond had the misfortune to meet with a car accident while travelling east on the Crownset trail on Friday night of this week. The car escaped with slight damage, and the occupants were uninjured.

The "Dandy Boys' Orchestra," of Michel, staged a dance in the Club Hall on Friday night. The local inhabitants reported a good time, also good music. Quite a number of Michellites followed their orchestra, to swell the crowd and try our floor.

The Geological Survey party, headed by Dr. MacKay, of Ottawa, which has been stationed at Corbin for the past few months, took its leave on Wednesday morning last. Dr. MacKay and some of the boys went as far east as Hillcrest, Alberta, where they plan on being stationed for a short time. The other members of the crew left for their respective universities at Vancouver and Edmonton, where they plan on furthering their education.

CORN—DROUGHT—WHEAT

—AND HOOVER

The prompt, well-conceived and hopeful measures President Hoover initiated to help meet the serious drought, which suddenly became the United States' greatest immediate concern, emphasize again his peculiar fitness to handle some of the extra-political, but most vital functions of the presidency. Recent months may have shown Mr. Hoover as somewhat less than comfortable in the tortuous toils of partisan politics, but in the planning and prosecution of vast works of economic or humanitarian relief, he is not only at home, but uniquely useful.

While estimate of probable losses are large, such as \$200,000,000 for Ohio and \$100,000,000 for Missouri, in many states the losses on corn will be at least partially compensated by increased prices for wheat. With the hogs and cattle of the Ohio and Mississippi valleys going on an enforced wheat diet, much of the surplus of that grain is certain to be wiped out. In Indiana it is believed 40 per cent of the wheat will be fed this year, while from the Kansas State Agricultural College comes a report that 25,000,000 to 30,000,000 bushels of hard winter wheat are being used to fatten stock. Within the last few days, September wheat has been selling two cents a bushel below corn, but such inroads on the supply will surely be reflected in rising prices.

Thus the drought may prove not entirely disastrous. Indeed, while hardships may be severe upon certain individuals and sections, it is not impossible that for the country as a whole the crop reduction will turn out a blessing in disguise. It is well known that a smaller total crop often brings a larger cash return. Thus, last December the fifty principal crops of the United States for 1929 were valued at \$8,580,526,000, which was one per cent. more than for the previous year, although yields were

5.3 per cent. less. The same thing is true of individual crops. In 1926, for instance, the American farmers gave to the public 5,000,000 bales of cotton more than in 1923, and received \$600,000,000 less for them. A destruction of useful products is a loss in the sense that it curtails the world's supply, but it may mean no loss in the monetary value of that supply.

Drought may accomplish in a week what all the efforts of the Farm Board and agricultural advisers have failed in months to do in the way of obtaining reduced production by persuading farmers to plant less acreage. And the result may—for the nation as a whole—be beneficial. That, however, should not lessen the effort of the national as a whole—to ease the burden upon those sections which stand the loss. President Hoover's energetic action should have will and warm support throughout the nation.—Christian Science Monitor.

T. F. BLEFGEN HEADS NEW FORESTRY BRANCH

T. F. Blefgen, whose appointment as head of the Forestry branch of the new provincial Natural Resources department was announced by Premier Brownlee last night, has been with the Dominion Forestry branch since early in 1917.

He joined the department as a ranger in the Crows' Nest district and since then has held various positions with the department and has covered most of the province of Alberta during the course of his work. After being promoted to deputy supervisor of the Crows' Nest district, Mr. Blefgen went to the Lesser Slave Lake district to take the same position, and then joined the Royal Flying Corps and spent some time overseas in the Great War.

On his return he was placed in charge of the Lesser Slave station, and a short time later, was appointed to the position of Chief of Fire Protection at Calgary, where he has remained for the past three years up to the present time.

During the early part of his career as a deputy supervisor, Mr. Blefgen spent a few months at the Cypress Hills station on the Alberta-Saskatchewan boundary.

Customer (to drug clerk).—"I want some powder."
Clerk—"The kind that goes off with a bang?"
Customer—"No, the kind that goes on with a puff."

UNION DECIDES ON EXPULSION OF COMMUNISTS

By vote, Communists delegates to the convention of the Mine Workers' Union of Canada were barred from further participation in convention sessions, it was announced as the convention, held in Calgary recently, neared its final meetings.

Ejection of the Communists element followed a submission of principles by the Canadian Defenders by two delegates, I. McDonald and D. Morgan. The manifesto of the Canadian Defenders includes anti-Communism, preference of employment for Canadian born and English speaking workers, preference of trade to English speaking business people, purchase of Canadian goods, minimum wage for all workers, unemploy insurance and other principles.

James Sloan, recently elected president by general vote, presided at the convention. Twenty-six delegates were in attendance, representing unions from all parts of Alberta and eastern British Columbia.

WORLD WIDE FIRM CHANGE NAME

Announcement has just been made of a change of name by the Nestlé's Food Company of Canada, Limited. This world famous company will be known in future as Nestlé's Milk Products (Canada) Limited.

The wide interests of this company and the varied nature of their products have been taken into consideration in this change of name. It was felt by those in authority that the new name of Nestlé's Milk Products (Canada) Limited, conveyed more to the general public than the old. When its various products, such as Nestlé's Condensed Milk, Evaporated Milk, Cheese, Baby Food, Chocolate and Lactogen are considered, the advisability of this change of name is apparent.

Despite depression affecting many lines of business and industry, the Nestlé's Company are enjoying sound progress. With their products selling in every country on earth and with their reputation for quality firmly established everywhere, this Canadian company have consolidated and progressed until their 1930 showing is comparable in volume to other record years.

The company is careful to state that the change is one of name only and that policy, direction and production methods will remain as formerly.

Good Boy!

And well he might give thanks for the change Nestlé's Evaporated Milk has made in him! Used to be cranky—sickly—just didn't progress. Now all this is changed. Bright, alert and happy.

And here's the Reason! Nestlé's Evaporated Milk is just the best of fresh cow's milk with part of the water removed—then sealed and sterilized in air-tight containers. Add water again and you have absolutely pure, safe milk—but more readily digestible than ordinary milk because the large fat globules of the milk have been broken up into small ones of the same size as in Mother's milk. Also, the curds which form in the stomach when Nestlé's Evaporated Milk is used are soft and flaky and therefore easily digestible.

Use Nestlé's Evaporated Milk for Your Baby. Use it in coffee—in cocoa—in tea. Use it in all cooking and as a beverage by diluting with one to two parts water.

NESTLÉ'S
EVAPORATED
(Unsweetened)
MILK

ONE-EYED CARS

The car with only one headlight burning is a constant source of danger to those who drive on the highways at night. Sometimes it is taken for a motor cycle, with disastrous consequences. Often it is hard for the driver of another car to tell which light is on. Wisdom dictates that such a car should be given a wide berth, which is not always possible, particularly on a narrow road.

The driver of a "one-eyed" car may not be altogether to blame if his light goes out on the road far from a garage, though some take undue advantage of a traffic officer's leniency in such cases.

It has been suggested that motorists be required by law to carry a spare headlight bulb, as they would a spare tire. The suggestion is a good one. With a spare bulb the motorist would be prepared for all emergencies not due to defective wiring, and the roads would be much safer for night driving than they are now.

THIS SONG WILL LIVE

Some years ago a song sprang into great favor. It was entitled "I want what I want when I want it." That song will live because it expresses a real human desire.

That song was written to be humorous. But it expresses at the same time a very sound principle.

Take the Printing business for instance—You are a customer—We are printers—You "Want what you want when you want it"—We are organized to give it to you.

This means less worry, and a fine feeling of satisfaction to know that at the end of the phone there is a house not only willing but able, to give you a service on which you can rely, to make promises and to keep them.

Visitor: That is a beautiful clock. Is it insured?

Manager: No, but it is absolutely safe. There are more than a hundred people working on this floor, and everyone of them is watching it.

WRIGLEY'S

WORLD HAPPENINGS BRIEFLY TOLD

It is reported that Bernt Balchen, Norwegian flier who participated in the Byrd South Polar expedition, is planning a round the world flight.

Erastus G. Pearce, 60, vice-president and general manager of the Sherbrooke Daily Record, died at his home following a short illness.

Dieudonne Coste has been made an honorary colonel and Maurice Belkote an honorary lieutenant in the Mexican air force upon suggestion of the ministry of war.

Believed to be the oldest telephone operator in point of service in the United States, Miss Elizabeth Good, of St. Paul, Minn., has retired. She served subscribers 50 years.

Canada's term as a member of the Council of the League of Nations, has terminated. Sir Robert Borden, the Dominion's delegate, will now participate only in meetings of the assembly.

High praise was given to the equipment of Canadian sanatoria by Dr. F. J. H. Coult, tuberculosis specialist of England, who sailed from Montreal on the Canadian Pacific liner "Montcalm" for Southampton.

It is understood that officials of the British Empire Trade Exhibition were planning to ask the air ministry to send the dirigible R-101 or the R-100 to Buenos Aires, next March, for the exhibition there.

With a pledge given by the Latin bloc, which controls 15 votes in the assembly, to support Ireland, it becomes practically certain that the Irish Free State will succeed Canada on the council of the League of Nations.

Economic loss to the Dominion through unemployment is \$10,000,000 a month, Mayor H. W. Cater, of Brandon, Man., president of the Union of Canada Municipalities stated at the opening of the 30th annual convention of that body at Hamilton.

Communist forces in China attacked British and United States gunboats. No fatalities were reported, though it was stated that the British boat's retaliation was the "heaviest attack against Chinese outlaws in recent years." It is thought that some members of the Red parties may have been killed.

GOVERNMENT GRAIN INSPECTION

We are indebted to the Searle Grain Co., Ltd., Winnipeg, for the following article describing the system of Government Grain Inspection as carried on under the supervision of the Board of Grain Commissioners:

The Dominion Government Grain Inspection Department is under supervision of the Board of Grain Commissioners, but the direct responsibility for the actual grading is placed upon the Chief Inspector for Canada and his deputies. These men are efficient, of high integrity and have had many years of experience.

The necessary qualities of a Grain Inspector are sound judgment, accuracy and a thorough knowledge of grain, as well as a general knowledge of the many different varieties and their respective milling values.

A good light is essential to grading. The Inspection Department always uses a north light so there is no glare from the sun, and a north light is always steady. The actual grading is never done later than 4:30 in the afternoon, thus utilizing the light while it is at its best.

After the samples are taken from the railway cars, as described in our pamphlet "Government Grain Sampling," and have been delivered to the Grain Inspector's office, the first step in grading is weighing the samples to ascertain the test weight per measured bushel. Then the dockage is determined by weighing 500 grams (approximately a pound) of grain, sieving it and weighing the refuse or "dockage" which has been screened through the official standard sieves for that purpose. The test weight and dockage are recorded on the cardboard ticket contained in each sample bag. The Inspector then grades the cleaned grain, placing grade and dockage on the "Inspector's Sheet," making notations regarding the quality, test weight and the load lines of the car. The samples are then checked and passed on by the Supervisors as to accuracy of grade, and thus double checked.

Sample box showing samples as they arrive from the railway car, and a ticket of identity.

Thus the Deputy Inspector does not know where the car he is grading is from or who owns it; each individual sample is graded on its own merits. After the Deputy Inspector has graded a sheet the larger and the smaller sheets are put together by the clerical staff, grades are filled in.

Each day copies of the inspection sheets are sent to the Government Grain Inspection offices at terminal unloading points to be used for binning purposes.

The most important of the mechanical aids used by the Inspectors are sieves, wild out separators, scales and moisture testers. The sieves used for cleaning wheat are the No. 10 wire sieve and the No. 5 zinc buckwheat sieve. A Cowan dockage tester is used for separating wild out, and an Emerson dockage tester is used in the case of durum wheat. A No. 8 wire sieve is used for cleaning barley. For flax two sieves are used; the top sieve is a 3 by 6 wire sieve, while the bottom sieve is of 2 1/2 inch with 4 1/2 by 6 round perforations. The principal scale used is a 500 gram scale which gives percentage readings in dockage tests. An Imperial quart kettle is used for determining the test weight per measured bushel. The moisture tester (Brown-Duval type), is the most intricate of these and is operated as follows: 100 grams of wheat are put into a glass flask with 150cc. of oil. (The oil prevents the wheat from burning). A thermometer and a light fitting rubber cork are inserted in the top of the flask and from the side of the flask is a spout which fits into a long glass condensing tube submerged in a tank of running cold water. Underneath the condensing tube is a graduated glass cylinder into which the moisture condensed from the grain falls. When the thermometer registers the prescribed temperature of 180 degrees the heat is turned off, moisture tester allowed to cool, and the percentage of moisture in the graduated glass cylinder is recorded.

Before each Deputy Inspector are minimum standard samples of the different grades which are for his guidance. These standard samples are made up each fall for the new crop as follows: "One miller's representative, four representatives of the Producers of Alberta, five from Saskatchewan, three from Manitoba, one from British Columbia, the

Grading room at Winnipeg Government inspection sample - for which there is no charge.

If the grade is not raised and he is still dissatisfied, he can have the unload sample placed before the Grain Appeal Tribunal, whose decision is final. The fee for an appeal is \$3.00. If the grade is raised the fee is returned, and if the Inspector's grade is sustained the fee is forfeited.

Appeal Boards in the Western Division are situated at Winnipeg, Calgary and Edmonton. Each Board consists of eight members, including the Chairman, who is an independent salaried official. A quorum of an Appeal Board of Tribunal consists of the Chairman and two other members, one of such members to be a representative of the Producers.

The Western Inspection Division is all territory from the Pacific Coast to the Head of the Lakes. In this territory are several inspection points, namely, Fort William, Port Arthur, Winnipeg, Moose Jaw, Saskatoon, Calgary, Edmonton, Medicine Hat, Prince Rupert and Vancouver. Approximately 130 inspectors are employed under the Chief Inspector.

There is also a large research laboratory in connection with the Inspection Department at Winnipeg. Its duties are to determine the milling and baking qualities of wheat and also to make protein and moisture tests as well as general research work for the guidance of the Western Grain Standards Committee and the Inspection Department.

Our management pays careful attention to the grading of all cars consigned to our advice. The inspection certificate is compared with advice from the shipper as to grade anticipated, the official Government sample of the car is carefully examined in the Inspector's office and the shipper's instructions are carried by. Whenever we consider any better grade obtainable by a re-inspection it is ordered on the unload sample and if necessary we ask for an appeal.

New Device Demonstrated

Musical Produced From Instrument Based On Radio Principles

By merely moving his hands before a plain looking cabinet, Lenington H. Shawell, a national broadcasting artist, created music of such amazing tone and beauty that radio engineers from all over America, who heard him, applauded enthusiastically.

It was the first public demonstration in Toronto of the Victor Therman, a musical instrument based on radio principles, which had been brought here for the annual banquet at the King Edward Hotel held in connection with the fifth annual and the first international convention of the Institute of Radio Engineers.

The music of the instrument had been heard by many before on national hook-ups over the air, but more novel than the actual music was the simplicity with which the young artist seemed to produce it. Standing before a silver rod which extended above a plain wooden box, Mr. Shawell merely moved his hands back and forth to bring out the tones he desired. His right hand was used to bring out the melody, he explained later, and with his left hand he controlled volume, phrasing and expression.

The Therman is named after its

creator, a Russian, who conceived the idea that in the "squalls" of radios was sound that could be utilized as music.

A study looking into causes of street car and bus traffic accidents showed that more than 20 per cent. of the street car and bus operators are "prone-to-accident" men.

An Aviation Mecca

Canada Is World's Best Testing Ground For Aeroplanes

Canada is the world's best testing ground for aeroplanes, as they are given year-round use under varying conditions on wheels, on docks and on skis; said Ernest Robinson, vice-president of the Fairchild Aviation Corporation, in opening the new Canadian factory and aeroplane and seaplane base at Longueuil, Que.

The new plant, which was constructed to turn out Fairchild planes for Canadian use, is expected to turn out about 150 Fairchild planes a year.

A philosopher of the fourteenth century has left it on record that: "Most men have three characters—that which they do exhibit, that which they have, and that which they think they have."

The Atlas moth, a night flying insect of Central America, is one of the largest insects in the world. Its wings measure 14 inches from tip to tip.

A new dress material is said to be made from steel. Artificial teeth for moths will be the next thing.

JONAH—THE NARROW-NATION-ALIST REBUE

Golden Text: "Of a truth I perceive that God is no respecter of persons; but in every nation he that feareth Him, and worketh righteousness, is acceptable to Him."—Acts 10:34, 35. Lesson: Read the Book of Jonah. Devotional Reading: Psalm 139. 7-12.

Explanations and Comments

Jonah's Disobedience, chapters 1 and 2.—"Whenever we are conscious of an urgent voice which says to us, over and over, 'You ought! You ought!' it is likely that we are listening to the word of the Lord. It was thus that the word of the Lord came to Jonah telling him that he ought to go to Nineveh, that great city, and preach there the message that God made him. Instead of obeying the voice, Jonah went in the opposite direction, the story tells us. At Joppa he found a ship bound for Tarshish (the Phoenician colony on the southern coast of Spain, then regarded as the very end of the earth), and went aboard it. A violent storm arose, the sailors concluded that some one had offended his god, and they cast lots to discover the culprit. The lot fell upon Jonah, who acknowledged his guilt, and advised them to throw him into the sea. Finding the effort to row back to land unavailing, the sailors prayed to Jehovah, and then reluctantly cast Jonah overboard. The sea ceased from its raging, and the sailors offered a sacrifice to Jehovah. A great fish swallowed Jonah, and after three days cast him out upon dry land.

The Prophet Rebuked, 4:8-11.—Still unwilling to believe in divine mercy, Jonah erected a booth for himself east of Nineveh and sat under its shade to see what would become of the city. The booth was constructed of branches whose leaves withered, but a gourd sprang up and its living leaves afforded him grateful shelter.

The gourd was eaten by a worm, and it withered, and then the scorching heat of the sun beat down upon him, and he fainted and again prayed that he might die. "It is better for me to die than to live," again he cried. Recall Elijah's wish for death, 1 Kings 19.

"Dost thou well to be angry for the gourd?" said God to Jonah. "Do well to be angry, even to death," was Jonah's violent retort. His pride as a prophet was hurt, and he was indignant that "heathen Ninevites" should receive mercy from Israel's God. When Job was overwhelmed with afflictions, and was told by his wife to "Renounce God and die," he answered: "What? Shall we receive good at the hand of God, and shall we not receive evil?"

"I never knew until I got to a car," said the bishop, "that profanity was so prevalent."

"Do you hear much of it on the road?"

"Why," replied the bishop, "nearly everybody I bump into swears dreadfully."

A goodly number of water-fowl areas have been reserved as sanctuaries in the western provinces where so many of Canada's ducks breed.

How To Lose 24 Pounds of Fat

At the Same Time Gain in Physical Vigor and Youthfulness and Swiftly Possess a Clear Skin and Vivacious Eyes that Sparkle with Health.

Here's the recipe that banishes fat and brings into blossom all the natural attractiveness that every woman possesses.

Every morning take one-half teaspoon of Kruschen Salts in a glass of hot water before breakfast.

Be sure and do this every morning for "It's the daily dose that takes off the fat."—Don't miss a morning. Kruschen daily means that every particle of poisonous waste matter and harmful acids and gases are expelled from the system.

Modify your diet, and take gentle exercise. The stomach, liver, kidneys and bowels are tuned up, and the pure, fresh blood containing these six salts is carried to every part of the body, and this followed by "that Kruschen feeling" of energetic health and activity that is reflected in bright eyes, clear skin, cheerful vivacity and charming figure.

Not Cramped For Space

Accommodation On R-100. More Commodious Than On Trains

When the British air liner R-100 was over Ottawa, it was difficult to realize that the ship's weight in the air is actually over 150 tons. In length R-100 is larger than any of the ocean liners that sail out of Montreal. The airframe to house R-100 would have to be larger than any city block in Ottawa.

Passengers on the air liner have cabins as commodious as the cabins on ocean liners. They are larger than the compartments in Pullman sleeping cars. There is more room on the promenade decks of R-100 than in the observation cars of transcontinental trains. The dining saloon will accommodate more passengers than will the dining car of any train.

Under construction, when the long steel girders of the airship were to be seen, it conveyed an impression of strength, much like the appearance of an ocean liner in the shipyard. Long before R-100 has reached the present age of the British liner "Mauretania," first class passenger travel will be almost entirely by air.

Royal Winter Fair

The Royal Winter Fair at Toronto this year will be held from November 19th to November 27th, both dates inclusive. The association has recently opened new and larger offices in the Reiford Building, the change being made necessary by the expanding business of the association.

Mothers! Don't Risk Their Health With Violent Purgatives

Constipation is one of children's greatest enemies. Unless the intestinal system is kept clear and clean its health is almost sure to follow.

But severe acting laxatives are dangerous. The bodily system of child or adult is not meant to withstand the unnatural, forcing action caused by ordinary, cheap cathartics.

ENO'S 'Fruit Salt' in a glass of water, every morning is the safest, surest and most pleasant way to insure cleanliness and perfect health.

CHAPTER XXIX.—Continued

But Jim Bennett suddenly pushed between them. "Hold on," he commanded brusquely, with a nod at the door marked "Private." Thus was the president of the Wickfield National Bank ejected from his own quarters. He went peacefully, but not before he had seen something that caused him to blow his nose with exceeding violence as he closed the door. Charman was weeping, her tears soaking the shoulder of Jim's new dress.

"You promised not to cry, dear," Jim reminded her at an interval. She stirred, as if to move away, but his arms held her so relentlessly that she relaxed and said, not raising her eyes: "I'm terribly ashamed to— to give way like this, Jim. But— but I felt so homeless all of a sudden."

Her voice trembled with heart-break. Jim couldn't stand it. "Don't say that, Charman," he cried, his own voice shaking. "Remember! Why, you've got that precious little grandmother, and— and me— any time you'll say the word."

Under the new coat she felt his heart race, as hers was racing. It gave her courage to ask shamelessly: "Then— then you aren't going to be married, after all?"

"Not unless I marry you, sweetheart," he answered.

Sweetheart! Was this her inarticulate Jimmy? Charman didn't know his voice could sound like that. For a moment she forgot the homelessness that had brought her tears—forgot everything in the sense of relief that flooded through her as she gasped: "Then there isn't a girl in California, as Miss Lizzie said?"

Jim smiled, thinking how innocently his mother had played into his hands. His arms tightened as he answered:

"No," answered Jim. "He didn't say a word about it."

And then something, she couldn't have said just what, drew Charman's eyes to George K.'s old desk and the check, which he'd left lying face up on the shabby blotter.

"How stupid of me!" she cried. "This will tell us, of course. Why? Why, what?"

Her voice trailed off into silence as, bending above the desk, she read down at a signature as familiar as her own. With an unsteady hand she drew the blue slip nearer—then raised her eyes, lips trembling, as she asked: "What, does it mean? You bought our house, Jim? I don't understand. I— can't— seem—"

"Steady, dear," said Jim, and covered her hand with his. "I couldn't let a stranger buy it, could I? You see, I was afraid the time had come when you'd have to let it go, so when I went West I told Uncle George to keep his eyes open, and make you an offer. I thought when I took Mother away, that it didn't matter much whether I was anywhere, I was— positive, that you'd marry the doctor. No," (as she would have spoken), "let me finish, Charman. I didn't know you, understand, how well the M.D. was loved financially, and I wanted to make sure you'd have the house. I didn't dare put up with how I'd give it back to you, but I'd found a way. It looked then as if it were the only thing I'd ever be able to do for you, dear—and I wanted to do so much. And then Uncle George wrote that he suspected you'd turned down the doctor, so—well, I thought if I owned the place, you and Grandma could stay right on caretakers and me, and the way you've always wanted to, I even hoped that, as time went on, you'd get to see that the love I had for you might be worth considering."

And then all of a sudden I couldn't bear it. I knew I'd got to come home and find out where I stood. I got up at midnight and began to cram things into a suit case. Mother looked in the door and called Aunt Sophie, that was under the impression that I'd lost my mind."

When BABIES are Upset

BABY ills and ailments seem twice as serious at night. A sudden cry may mean colic. Or a sudden attack of diarrhea. How would you meet this emergency—tonight? Have you a bottle of Castoria ready?

For the protection of your wee one—for your own peace of mind—keep this old, reliable preparation always on hand. But don't keep it just for emergencies; let it be an everyday aid. Its gentle influence will ease and soothe the infant, will help an older child whose tongue is coated because of sluggish bowels. All druggists have Castoria.

Fletcher's CASTORIA

W. D. & S. 1865

As Jim talked he had reached for the newly signed deed and was slowly leaving it into a slip under Charman's fascinated gaze. It was this that caught George K.'s eyes when, after a considerable rattling of the doorknob, which passed unnoticed, he returned to his own domain.

"What in the name of Sam Hill are you doing?" he demanded with a glance at the waste basket into which Jim had dropped the fragments. "Have you backed out of your bargain at this late date?"

"Yes," replied Jim happily, "but I made another—promised to love, honor, and obey, you understand. Sorry to have caused you all this trouble, Uncle George, but it would be rather foolish to have this paper recorded and then, a week or so later, deed the place back to my—my wife. I think you'll agree to that."

The president of the Wickfield National Bank sank slowly into his worn leather chair. "Jim," he murmured, shaking his gray head, "when it comes to picking out a wife you've got more house sense than my three boys put together. As for Charman, it's my opinion that she might do worse, considerably worse. But—"

"Uncle George," broke in Charman reproachfully, "you said that the man who wanted to buy our house was some one who had driven by and—"

"Well," interrupted the banker with a twinkle, "I don't know any one who's haunted your vicinity—more than Jim has!"

"You said," went on Charman, still reproaching, "that he was going to be married, and—"

"What's wrong with that statement?" demanded George K., smiling. "You haven't the heart to let him vegetate into an old back like Gen. Garfield, have you?"

Jim made an unsuccessful effort to suppress a grin, and said: "I'd no idea you were such an accomplished liar, Uncle George; but as I drove you into it, I think we'll have to forgive you—that is, if you promise not to let it happen another time."

"Clear out, both of you," commanded George K. briskly. "I'm going home this minute and tell Salina. I'm expecting a man from Portland, on the eleven, but he'll have to wait—darned if he won't! I haven't been so happy since I got word that I was a granddad. Run along, I'm in a hurry." Then, as the young folks reached the door he added: "Charman, haven't you forgotten something, my dear?"

Charman laughed, came back, and said as the president of the Wickfield National took her in his arms: "I was wondering if you'd let me go this time without a kiss!"

CHAPTER XXX

It was twilight, and Grandma Davis sat by the window, living over every hour of the day that was drawing to a close. She had been in a sort of blissful daze from that moment when Charman and Jim Bennett had burst in upon her, the girl sinking down at her knee as she had always done in childhood when there was anything wonderful to tell. Sometimes it was merely the arrival of the first crocus, or news that the baby bluebirds in the apple tree were trying their wings. Sometimes it was the prospect of an unexpected treat, a coming circus, perhaps, or a Sunday School picnic—but it was here at Grandma's knee that all glad tidings were poured out. Yet, thought the old lady, catching her breath sharply at its beauty, never before had such a radiance shone from the girl's face.

"You'll never have to leave the old house, Grandma darling," she was saying tenderly. "Thanks to this blessed Jim it's ours forever and ever, amen."

Grandma looked up at Jim, then back at Charman. She did not say that with some strange sixth sense she had known when they left her that Charman was on her way to sign the deed. It had been a bitter hour for Grandma, waiting there in silence with her memories; and now she asked, not seeing the way quite clearly: "You mean, dearie, that you've sold the house to Jim?"

The young man came closer, smiling down upon her.

"That wasn't necessary, Grandma. Can't you guess why?"

His eyes met Charman's in a glance that needed no interpretation, and Grandma cried: "You mean she—she's taken you, Jimmy? She's really taken you?"

Jim laughed, softly.

"Incredible as it seems—she has!"

"And you're not doing it just for me, dearie?" Grandma's wrinkles

CORNS
Lift Right Off No Pain
POTNAM'S
Corn Extractor

face bore a strange mingling of joy and fear. "That wouldn't be fair to Jimmy, Charman. He deserves the best. You mustn't cheat him even to keep my heart from aching. You're not doing it just to get the house?"

(To Be Continued)

Newspaper Influence

Press of Today Is Becoming More Independent

Writing in *Nation's Business*, Gamaliel Bradford draws a striking picture of achievement during the nineteenth century, and among other developments he points to the rise of the modern newspaper. "When we compare the newspaper of a hundred years ago with that of today," he says, "we appreciate the immense social influence that has been exerted in every phase of human affairs."

Quite true. Perhaps no other factor of civilization has been more potent. The newspaper of today epitomizes human evolution. It is the chief avenue of current thought. It touches life at nearly every angle. It has not only kept in step with every aspect of social and economic progress, but the truth must be frankly recognized that it has, on the whole, displayed capable leadership. It has stood for worthy ideals.

All newspapers were once fiercely partisan, and a general election was not necessary to tell us that many are still so. But the drift has been toward relative independence. An uncompromisingly partisan journal is ipso facto an uncompromisingly partisan individual, in the sense that it sees but one side of an issue. There are usually two sides. As the process of evolution proceeds we are likely to see less of superheated and unreasoning partisanship among at least the leading newspapers. How much of genuine influence was exercised by the press of Canada in the recent general election no one may say, but it was undoubtedly considerable. This means responsibility as well as opportunity, and, speaking broadly, that spirit of trusteeship over public opinion is growing. It has immense and promising implications.

Recipes For This Week

(By Betty Barclay)

PEAR AND APPLE CONSERVE

- 1 pint dried pears.
- 1 pint dried tart apple.
- 1 lemon, juice and grated rind.
- 1 cup seedless raisins.
- 3/4 cup English walnuts.
- 3/4 cups sugar.

Wash the raisins and steam them for 30 minutes to plump them. Add them to the other ingredients and cook the mixture until it is thick and clear. Turn it into clean, hot jelly glasses, and when it is cold, cover it with melted paraffin. The nuts may be omitted, or a small amount of preserved ginger may be added.

APPLE TART

Use tart apples that are barely ripe or slightly underripe. Wash and core them, leaving the peel on. Add water to cover, about 2 cups to each pound of fruit. Cook 15 or 20 minutes, or until soft. Strain through a cheese-cloth bag and then through a flannel cloth. Add 1/2 cup sugar to each cup of sour apple juice, or 1/2 cup sugar to each cup juice of moderate acidity. Boil to the jellying point and fill glasses.

Says World Through With War

Frank B. Kellogg Thinks Public Opinion Will Make It Impossible

In an interview with *Edward Price Bell*, in the *Daily News*, the other day, Frank B. Kellogg affirmed that in the civilized world "public opinion is finished with war." Armed strife, therefore, he considers to be most improbable.

The tension between Italy and France, the recent German attacks upon the Versailles treaty, and other somewhat disquieting occurrences do not disturb Mr. Kellogg. He believes that formidable legal barriers to jingo recklessness have been erected in Europe, and that bellying with political parties appealing to prejudice and fear will find those barriers insurmountable because of the moral forces behind them.

Minard's Liniment is a household friend.

Idea Not So Good

The witness was certainly no chicken, and the young barrister thought it would be to his advantage to get her rattled.

"And now, madam," he said, "I must ask a personal question. How old are you?"

"Young man," she replied, "it isn't more than an hour since the Judge, there, objected to hearsay evidence. And I don't remember being born, and all I know of it is hearsay."

CANADIAN PACIFIC STEAMSHIPS

Cruise Ocean In Open Skiff

Boy and Girl Make Trip From Bermuda To New York

Eric Johnson, 21 years old, and Florence Smith, 24, of Warwick, Bermuda, arrived at the army base pier in Brooklyn recently, after a 17-day trip from Bermuda in an open skiff. The trip in the 15½-foot boat, which Johnson himself built several years ago, started when he and the girl decided, as they were sitting on the beach, to go for a ride. The ride finally developed into a trip to Nova Scotia where Johnson has relations.

Neither had any knowledge of navigation and the only nautical instructions they had was a small pocket compass. Knowing that the direction to New York was northwest in general, they kept the skiff headed in that direction with the aid of the compass.

Two days from Bermuda the sail which the small boat carried knocked it out of the boat. Though she could not swim and found herself surrounded by sharks, she managed to scramble back into the skiff safely.

With the exception of two days of bad weather, the trip was made under ideal conditions, and they finally arrived off Barnegat Bay light. Johnson hailed the lighthouse and verified his position before continuing on to New York.

At the army base pier, the two voyagers were found by the superintendent, Walter Bernard, who took them to his home and supplied them with food and clothing.

William King, immigration inspector, went to see them at Bernard's home and they explained that they knew nothing about quarantine regulations. As they were only stopping in New York on their way to Nova Scotia, King let them go after an examination at the barge office.

A Dream Of Utopia

When Men All Over The World Will Work But Three Days A Week

At High Wages

Prediction that men in the future all over the world will work but three days a week and be paid high wages, was made by Sir William Jowitt, Attorney-General of England, who with a group of distinguished European jurists visited Baltimore recently.

The Englishman said there will be ups and downs in the world-wide economic situation, but no permanent recovery until that time.

Sir William, who has been an outstanding member of the Labor Government since 1929, placed a share of the blame for England's unemployment situation on the Wall Street crash last fall.

Speaking of the English situation, he said: "I believe the upturn is coming, and that England will be among the first to recover."

The upward trend in the immediate future will result from depletion of stocks of goods turned out in the past and at a rate faster than that of world consumption, but the permanent cure will not come until there has been some adjustment in the world eventually will work but three days a week, but will be paid high wages in order that they may consume the goods they produce."

A newly perfected machine for washing railroad cars can be operated by five men and cleans 100 cars in an eight-hour day, whereas until recently five men could clean only about four cars in that time.

Minard's Liniment for Cuts and Abrasions

Little Helps For This Week

"Let us not be weary in well-doing, for in due season we shall reap, if we faint not."—Galatians vi. 9.

He liveth long who liveth well. He liveth longest who can tell. Of true things truly done each day.

Then fill each day with what will last. Buy up the moments as they go; The seconds when they thus fly away. Is the ripe fruit of life below.

—Horatius Bonar.

It is the care of the wife and good must look to her manners and actions, and rather to how well she lives than to how long; for whether he shall die sooner or later is not his business; but whether he shall die ill or well.—Seneca.

B.C. Coal For Peru

Trial Shipment Of Coal From British Columbia Goes To South America

An initial shipment of coal from British Columbia has been sent to Callao, Peru, where it is being favorably received. In the past, Great Britain supplied 75 per cent. of the 30,000 tons required by Peru annually, but owing to some extent to the New South Wales coal strike and to the depressed shipping conditions on the North Pacific, Canada has been able to invade this market.

The first automobiles was unknowingly built in 1804, when Oliver Evans put wheels on a steam dredge and drove it two miles under its own power.

Rubber overshoes, lined over the forward edge of the wing, have been devised to keep airplanes free from ice.

Measurement of the speed of earthquakes proves that the earth inside is rigid and not liquid.

Picture of Health Now

"In May and June I was badly run down and had faint spells until it was a drag to get up. In July and August I didn't seem to pick up so I decided to try Lydia E. Pinkham's Vegetable Compound because I saw it advertised. I took two bottles and now I am the picture of health. I feel fine, do all my work and milk two cows. If any woman writes, I will certainly answer her letter."—Mrs. George R. Wallace, Puncheon, Saskatchewan.

Lydia E. Pinkham's Vegetable Compound

Prepared by Lydia E. Pinkham Medicine Co., Lowell, Mass., U.S.A.

Your Boy!

IN your boy's future money must play an important part. The possession of it may mean success; the lack of it, failure. Your experience tells you what he cannot know—the value of money saved. You can give him a precious asset—the habit of saving. His first thousand dollars may mean a lifetime of success.

Local and General Items

Miss Julia Dutil, is home from Calgary on an extended visit.

Dr. and Mrs. R. K. Lillie motored to Creston on a visit to Dr. Lillie's parents over Sunday.

Arnold Baratelli is attending the Dominion school at Winnipeg, taking up an aviation course.

BELLEVUE C.W.L. BAZAAR will be held on November the 8th. Keep the date open.

Miss Evelyn Bennett returned to Calgary on Sunday, where she will resume her studies at St. Hilda's school for girls.

Alex. Cameron returned this week from the Edmonton district, where he has been for the past few weeks, looking after some farming interests.

The mothers of the country have just completed another endurance contest—the children have returned to school after two months holidays.

W. H. Chappell attended a meeting of the Alberta branch of the Amateur Athletic Union of Canada, held at Medicine Hat on Monday.

The Knights of Pythias are holding a whist drive and dance in the hall on Wednesday next, Sept. 24th. Bill Fraser is supplying the dance music.

The hunting season got under way on Monday and excellent bags are reported for the opening day. A party of four from a neighboring town report forty-eight ducks, Chas. Sartoris and Arthur Grant brought down fifty-eight, while we learn another local party of four brought in over a hundred and ten.

Dr. J. Olivier, of Creston, spent Sunday in town with his family.

Miss Nora Picard, of Stettler, is home this week on a visit to her parents.

Miss M. Houbregs is home, after spending the summer months at Waterton Lakes Park.

THE C.W.L. ANNUAL BAZAAR, Opera House, Nov. 15th. Dancing 9 to 12. Watch for this annual event.

The town's "no parking" signs are affording great amusement for the hoodlums, who take great delight in turning them to all angles.

James McVey and James "Puffy" Kemp, of Turner Valley, are visiting their homes this week, during a temporary lull in work at the oil fields.

A disappointing thing about our neighbor's children is the fact that they never turn out as bad as we expect.

Don't forget the tea and sale of Home Cooking to be held by the Junior C.W.L. Opera house, Tuesday, September 23.

Women appear to have three ways of meeting domestic crisis, remarks a young Blairmore husband: suing for divorce, having a good cry, and rearranging the living room furniture.

Sam Ennis underwent a critical operation at Lethbridge this week. Mr. Ennis has been bothered for some time now with one of his eyes and lately it became so painful that he had to have it removed. From reports, he is progressing nicely. His son, Delbert, accompanied him to Lethbridge.

THE JUNIOR C. W. L. Will Hold a TEA and SALE of HOME COOKING IN THE Opera House - Tuesday, September 23rd From 3 to 6 p.m.

Robt. Gray was a business visitor to Creston last week end.

He who would climb a tree must grasp its branches—not the blossoms.

C.P.R. employees are holding their first annual dance at Frank on Tuesday night of next week.

It is mighty hard for a wife to learn to love any husband who can't earn enough money to buy her at least a second-hand auto.

G. A. Passmore returned last week end to resume his duties as agent at the local C.P.R. depot, after a delightful motor vacation, accompanied by Mrs. Passmore, to Pacific coast points.

HOUSEHOLD EFFECTS FOR SALE—Leaving for Vancouver, disposing of entire household effects, including: Furnace and Gramophone with Albums and Records. Apply J. S. WHYTE. —Ln.

Roland Pinkney and Bob Thompson left by motor on Saturday morning last for Edmonton, where they are writing examinations. Miss Mable Thompson accompanied them as far as Calgary, continuing on from there to Vancouver, where she will attend the University of British Columbia.

At a meeting of the Blairmore Amateur Athletic Association, held in S. G. Bannan's office on Thursday evening last, plans were formulated for improving the athletic grounds. A quarter-mile track will be built, the contract for which is let to Sartoris & Bielli and the work to be undertaken at once, and necessary rearrangement of the grandstand, etc., to conform with the new track will be done later. The association intends to make a bid for the 1937 provincial meet.

Keeping a daughter in clothes isn't always a financial problem.

We saw Mrs. Stewart, Mrs. Archer and Mrs. Baird chatting on the street—that's nothing new.

Meet me at the tea and sale of home cooking, opera house, Tuesday, September 23. Junior C.W.L.

For girls to try to look mysterious again by wearing long skirts, says Bill Johnston, is like buying a look after the spare tire has been stolen.

"Mickey" Brennan and "Gusty" Gustavson, of the Trail Smokeaters and who learned their hockey in Alberta, are now located at Port Arthur. Brennan is a product of the Coleman Junior Canadians.

FOR SALE—A. C. Westinghouse Console radio, shape A-1, price new \$285, snap \$100 cash. Soprano Saxophone, silver and gold bell, with case, new \$150, snap \$50. cash. Apply C. E. Slopak. —Ln.

The repeated and annual warning to hunters to be careful during the shooting season seems to be of little avail. Press reports show that on Monday, the opening day, one man was killed this year while hunting in the Peace River district, another met death in Saskatchewan, while two minor accidents took place in the northern part of the province.

Little David Jones, son of Sergt. and Mrs. Jones, had the misfortune on Saturday last to fall from the courthouse rear steps to the pavement below, receiving injuries that necessitated medical attention and removal to hospital. Mr. and Mrs. Jones had just left for a brief holiday in the Windermere Valley, B.C., and were hurriedly called home. The lad is now at home and progressing favorably.

VICTORIA STREET BLAIRMORE, ALBERTA

Anger is a Poison
and very often caused by poisons from your food. If you find yourself angry often for slight cause, look to your food.
MOTHER'S BREAD
is the great harmonizer. Instead of fighting with other foods, it gently soothes and promotes digestion. It's all food.
